Abstract of Proposed Collection

The PFP is a two-way, global exchange program for mid-level emerging leaders from select foreign countries. The PFP is managed by the Professional Fellows Division of the Bureau of Educational and Cultural Affairs. Foreign fellows come to the United States for a five- to six-week fellowship, including a minimum four-week tailored placement in a relevant professional organization (NGO's, business, government, etc.) and an end of program conference in Washington, DC. While in the United States, the foreign fellows volunteer in their local community, stay with local families, and create follow-on project plans to implement back in their home country. A select number of U.S. counterparts travel overseas on an outbound program that is approximately two weeks in length to directly support foreign fellows' follow-on projects. This program is funded pursuant to the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 24512464).

To fully evaluate the effectiveness and impacts of the program, the U.S. Department of State's Bureau of Educational and Cultural Affairs (ECA) intends to collect data to include the perspectives of:

- The foreign and U.S. fellows who participated in the PFP between 2013 and 2018;
- U.S. professionals who interacted with the foreign fellows during their exchange in the United States; and
- U.S. families who hosted the foreign fellows during their stay.

In order to do so, ECA contracted with GDIT to administer surveys and conduct face-to-face interviews with the stakeholders listed above.

Methodology

Data will be collected with a focus on answering how the program is advancing DoS strategic policy priorities, how well the program is meeting its goals and how alumni have operationalized skills and knowledge learned during their exchange experience to promote mutual understanding, create positive change, and build collaborative networks.

The evaluation will employ a mixed-methods data collection strategy, including face-to-face interviews and online surveys. Online surveys will be administered to all foreign fellows, U.S. reciprocal fellows, U.S. professionals and U.S. homestay hosts. To collect

more in depth responses, face-to-face interviews will be conducted with a subset of foreign fellows, foreign colleagues, U.S. reciprocal fellows, U.S. professional contacts and U.S. homestay hosts. The combination of methods will allow GDIT to generate a quantitative profile of the program and at the same time, capture rich qualitative data.

Aleisha Woodward,

Deputy Assistant Secretary.

Federal Aviation Administration

[Docket No. FAA-2020-0237]

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Commercial Aviation Safety Team Safety Enhancement Questionnaires

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The collection involves the collection of data for the Commercial Aviation Safety Team (CAST) to demonstrate voluntary participation with safety enhancements (SE). The CAST SEs are recommended best practices and implementation of the SEs is voluntary. It is vital for CAST to know the level of implantation of the SEs in order to determine the level of risk reduction in commercial aviation. To support this assessment CAST decided to gather information regarding the extent to which these SEs have been implemented by air carriers so it can determine if further action is required.

To facilitate this data collection for CAST, the FAA has developed an information collection (questionnaire) for key SEs that air carriers and operators are asked to complete using the FAA's existing web-based system, Web-based Operations Safety System (WebOPSS). Completion of the questionnaires is voluntary, and is requested of all current, now 61, part 121 certificate holders that the FAA oversees.

DATES: Written comments should be submitted by May 5, 2020.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0757.

Title: Commercial Aviation Safety Team Safety Enhancement Questionnaires.

Background: The FAA is collecting safety related data regarding the voluntary implementation of Commercial Aviation Safety Team safety enhancements from certificate holders conducting operations under 14 CFR part 121. Certificate holder participation in this data collection will be voluntary and is not required by regulation. As CAST SEs are finalized, the FAA will determine the details of individual information collections in consultation with CAST and certificate holders.

Respondents: 61 Part 121 Certificate Holders.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 40 minutes per response; estimated that each certificate holder will have 6 responses per year.

Estimated Total Annual Burden: 245 Hours.
