

Extension of Time Limits Regulation

Parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by Commerce.¹⁴ In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date. Examples include, but are not limited to: (1) Case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning CBP data; and (5) Q&V questionnaires. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This policy also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which Commerce will grant untimely-filed requests for the extension of time limits. Please review the *Final Rule*, available at <https://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in these segments.

These initiations and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.221(c)(1)(i).

Dated: March 4, 2020.

Scot Fullerton,

Associate Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notice

- *Chinook salmon (Oncorhynchus tshawytscha)*: Threatened, naturally and artificially propagated
 - *Snake River Fall-run (O. tshawytscha)*: Threatened, naturally and artificially propagated
 - *Snake River Spring/Summer run*: Threatened, naturally and artificially propagated
- *Snake River Steelhead (O. mykiss)*: Threatened, naturally and artificially propagated
- *Snake River Sockeye (O. nerka)*: Endangered, naturally and artificially propagated

Background

Section 9 of the ESA and Federal regulations prohibit the “taking” of a species listed as endangered or threatened. The term “take” is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may make exceptions to the take prohibitions in section 9 of the ESA for programs that are approved by NMFS under the 4(d) Rule (50 CFR 223.203(b)(6)).

The Shoshone-Bannock Tribe and the Idaho Department of Fish and Game have submitted two HGMPs under Limit 6 of the 4(d) Rule. The programs are funded by the Bonneville Power Administration (BPA) and the United States Fish and Wildlife Service (USFWS). Prior to making a final determination on the HGMPs, NMFS must take comments on how the HGMPs addresses the criteria in Limit 6 of the 4(d) Rule.

The submitted HGMPs describe two hatchery programs in the Snake River basin along with the associated monitoring and evaluation activities. The programs integrate natural-origin broodstock to supplement natural salmon populations. The programs are intended to provide fishing opportunities for tribes and states, mitigate for fish losses caused by the construction and operation of the dams on the Lower Snake River, and contribute to the survival and recovery of Snake River Spring/summer Chinook salmon in the Snake River basin.
