From there it will continue north throughout any navigable waters including all tributaries and bays. The delineation of the proposed no-discharge zone of Perrin River from York River will begin at 37°15'47.18" N, 76°25'20.73" W and extend to 37°15'50.63" N, 76°25'11.84" W. From there it will continue north throughout any navigable waters including all tributaries and bays.

Based on the boater population in Sarah Creek and Perrin River, EPA guidance recommends one pumpout facility for each waterbody. The Commonwealth of Virginia has certified that there are three stationary and one mobile pumpout facilities at two locations on Sarah Creek and one stationary pumpout facility on Perrin River. Two of the three locations also have a method to empty portable toilets. Furthermore, the Hampton Roads Sanitation District (HRSD) provides free portable pumpout service in Gloucester County on Fridays, Saturdays and Sundays during summer months and on Saturdays the rest of the year. HRSD prefers to service marinas but will provide the portable pumpout at a private residence when requested. The Virginia Department of Health (VDH) ensures that proper sanitary facilities are present at marinas, and marina facilities are inspected annually by VDH for compliance with regulations. A list of the facilities, phone numbers, locations and hours of operation follows.
