#### Next Steps

After public review we will assess the comments received and finalize the EA; we will determine whether the proposed action warrants a finding of no significant impact or whether an environmental impact statement should be prepared. We will evaluate each permit application, associated documents, and any comments received, to determine whether the permit application meets the requirements of section 10(a)(1)(B) of the ESA. We will also evaluate whether issuance of the requested section 10(a)(1)(B) permit would comply with section 7 of the ESA by conducting an intra-Service section 7 consultation under section 7(a)(2) of the ESA on anticipated ITP actions. The final NEPA and permit determinations will not be completed until after the end of the 30-day comment period and will fully consider all comments received during the comment period. If we determine that all requirements are met, we will issue an ITP under section 10(a)(1)(B) of the ESA to each individual applicant for the take of the covered species, incidental to otherwise lawful covered activities.

#### Authority

We provide this notice in accordance with the requirements of section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and NEPA (42 U.S.C. 4321 *et seq.*), and their implementing regulations (at 50 CFR 17.22 and 17.32 and 40 CFR 1506.6, respectively).
