SUPPLEMENTARY INFORMATION:

Title: Specified Commodities Imported Into the United States Exempt from Import Requirements.

OMB Number: 0581-0167.

Expiration Date of Approval: May 31, 2020.

Type of Request: Extension of a currently approved information collection.

Abstract: Section 8e (7 U.S.C. 608e) of the Agricultural Marketing Agreement Act of 1937 as amended (7 U.S.C. 601-674; Act) requires that whenever the Secretary of Agriculture issues grade, size, quality, or maturity regulations under domestic marketing orders, the same or comparable regulations must be issued for imported commodities. Import regulations apply only during those periods when domestic marketing order regulations are in effect.

The following commodities are subject to section 8e import regulations: Avocados; grapefruit; kiwifruit; olives (other than Spanish-style); oranges; table grapes; Irish potatoes; onions; tomatoes; dates (other than dates for processing); walnuts; raisins; pistachios; and hazelnuts (filberts). Imports of these commodities are exempt from section 8e requirements if they are imported for such outlets as processing, charity, animal feed, seed, and distribution to relief agencies.

Safeguard procedures in the form of importer and receiver reporting requirements are used to ensure that the imported commodities are, in fact, shipped to authorized, exempt outlets. Reports required under the safeguard procedure are similar to the reports

currently required by most domestic marketing orders and are required of importers and receivers under the following import regulations: (1) Fruits: Import regulations (7 CFR 944.350); (2) vegetables: Import regulations (7 CFR 980.501); and (3) specialty crops: Import regulations (7 CFR 999.500).

Under these regulations, importers intending to import commodities for exempt purposes must complete the form SC-6, "Importer's Exempt Commodity Form". SC-6 is submitted to AMS through the Compliance and Enforcement Management System (CEMS). CEMS is an internet-based application which allows importers and receivers of fruit, vegetable, and specialty crops to complete the form online. If an importer correctly inputs their shipment data into CEMS, they will receive and be able to print a certificate that accompanies the shipment. Data elements are simultaneously transmitted to the receiver and to AMS, where they are reviewed for compliance purposes by Marketing Order and Agreement Division (MOAD) staff. The receiver retains a copy for recordkeeping purposes.

In rare instances a paper form SC-6 may be used. The hardcopy form has four parts, which are distributed as follows: Copy one is presented to the U.S. Customs and Border Protection, Department of Homeland Security; copy two is filed with MOAD within two days of the commodity entering the United States; copy three accompanies the exempt shipment to its intended destination, where the receiver certifies its receipt and that it will be used for exempt purposes, and files that copy with MOAD within two days of receipt; and copy four is retained by the importer.

In addition to renewing the SC-6 form, this information collection package does the same for the SC-7 form, "Civil Penalty Stipulation Agreement." The Act authorizes the Secretary of Agriculture to assess a civil penalty of not more than \$1,100 per violation against any person who violates the Section 8e regulations. Investigators complete the form identifying the violation committed by the produce importer. Produce importers sign the SC-7 form to agree to pay the sum in full settlement. There is

no burden associated as only a signature is required.

The information collected through this package is used primarily by authorized representatives of the USDA, including AMS Specialty Crops Program regional and headquarters staff.

Estimate of Burden: The public reporting burden for this collection of information is estimated to average 5 minutes per response.

Respondents: Importers and receivers of exempt commodities. Based on the information collected on the frequency of use for the forms, AMS has revised estimates of respondents and responses. Estimates of respondents and responses are calculated by taking the raw annual data collected from inspections on Section 8e crops entering the U.S. market and finding the three-year averages. These numbers represent an approximation of the annual burden given the frequent changes in number of respondents and responses from year to year.

Estimated Number of Respondents: 79.

Estimated Number of Total Annual Responses: 6,867.

Estimated Number of Responses per Respondent: 87.

Estimated Total Annual Burden on Respondents: 568 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments to this document will be summarized and included in the request for OMB approval, and will become a matter of public record.

Dated: March 10, 2020.

Information Collection Request: Discharge and Delivery Survey Summary and Rate Schedule Forms

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice; request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Agricultural Marketing Service (AMS) is requesting comments from all interested individuals and organizations on a renewal of a currently approved information collection request. This information collection is necessary to support the procurement of agricultural commodities for domestic and export food donation programs. AMS issues invitations to purchase or sell and transport commodities, as well as sample, inspect, and survey, agricultural commodities at both domestic and foreign locations for use in international food donation programs on a monthly, multiple monthly, quarterly, and yearly basis. The AMS Commodity Procurement Program contracts for marine cargo discharge survey services conducted at the foreign destinations to ascertain count and condition of the commodities delivered.

DATES: We will consider comments that we receive by May 15, 2020.

ADDRESSES: Interested persons are invited to submit written comments on the internet at <http://www.regulations.gov> or to Service Contracting Support Branch, AMS-PPSCD, USDA, P.O. Box 419205, Kansas City, Missouri 64141-6205. Comments should make reference to the dates and page number of this issue of the **Federal Register** and will be made available for public inspection in the above office during regular business hours or at <http://www.regulations.gov>.

You may also send comments to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

SUPPLEMENTARY INFORMATION:

Title: Discharge and Delivery Survey Summary and Rate Schedule Forms.

OMB Number: 0581-0317.

Expiration Date: April 30, 2020.

Type of Request: Renewal.

Abstract: The United States donates agricultural commodities domestically

and overseas for famine or other relief requirements, to combat malnutrition, and sells or donates commodities to promote economic development. AMS issues invitations to purchase or sell agricultural commodities and services for use in domestic and export programs. Vendors respond by making offers using various AMS commodity offer forms through the Web-based Supply Chain Management System (WBSCM). The AMS Commodity Procurement Program contracts for discharge survey services conducted at the foreign destinations to ascertain count and condition of the commodities shipped. The form for discharge survey services is not in WBSCM.

The renewal to the information collection request is for the respondents to submit information electronically in WBSCM for all processes with the exception of the discharge/delivery survey summary and the rates schedule. Vendors will be able to access WBSCM to see the date and time the system shows for receipt of bid, bid modification, or bid cancellation information. At bid opening date and time, the bid information is evaluated through the system. Acceptances will be sent to the successful offerors electronically. Awarded contracts will be posted to the AMS website <https://www.ams.usda.gov/selling-food/solicitations> and also to the WBSCM portal and beta.SAM.gov, Contract Opportunities. The discharge/delivery survey summary (KC-334) will be collected electronically and by mail, and the rate schedule (KC-337) will be collected by mail.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hours is the estimated average time per responses multiplied by the estimated total annual of responses.

Estimate of Average Time to Respond: Public reporting burden for collecting information under this notice is estimated to average 29 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Respondents: Business and other for-profit organizations.

Estimated Number of Respondents: 41.

Estimated Average Number of Responses per Respondent: 11.83.

Estimated Total Annual Responses: 485.

Estimated Total Annual Burden on Respondents: 234 hours.
