

used from flight training to give the pilot the insight into aircraft handling characteristics with the additional weight on the wing.

6. The Joint Programmable Fuze (JPF) FMU-152 is a multi-delay, multi-arm and proximity sensor compatible with general purpose blast, frag and hardened-target penetrator weapons. The JPF settings are cockpit selectable in flight when used with JDAM weapons.

7. Advanced Precision Kill Weapon System (APKWS) II All-Up-Round (AUR) is an air-to-ground weapon that consists of an APKWS II Guidance Section (GS), legacy 2.75 inch MK66 Mod 4 rocket motor, and legacy MK152 and MK435/436 warhead/fuze. APKWS II uses a semi-active laser seeker. The GS is installed between the rocket motor and warhead to create a guided rocket. The APKWS II may be procured as an independent component to be mated to appropriate 2.75-inch warheads/fuzes and rocket motors purchased separately, or may be purchased as an AUR.

8. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used

to develop countermeasures, which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

9. A determination has been made that the recipient country can provide substantially the same degree of protection for the technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

10. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Tunisia.

BILLING CODE 5001-06-C

Transmittal No. 19-75

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of the Netherlands

(ii) *Total Estimated Value:*

Major Defense Equipment * .. \$75 million

Other \$10 million

Total \$85 million

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):

Sixteen (16) MK-48 Mod 7 Advanced Technology (AT) Torpedo Conversion Kits

Non-MDE:

Also included are spare parts, containers, associated hardware, torpedo handling equipment, and cables; U.S. Government and contractor engineering, technical, and

logistics support services; and other related elements of logistics and program support.

(iv) *Military Department*: Navy (NE–P–LHC A5)

(v) *Prior Related Cases, if any*: NE–P–LHC

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid*: None

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold*: See Annex Attached

(viii) *Date Report Delivered to Congress*: February 25, 2020

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Netherlands—MK–48 Torpedo Conversion Kits

The Government of the Netherlands has requested to buy sixteen (16) MK–48 Mod 7 Advanced Technology (AT) torpedo conversion kits. Also included are spare parts, containers, associated hardware, torpedo handling equipment, and cables; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The total estimated program cost is \$85 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve security of a NATO ally which is an important force for political stability and economic progress in Northern Europe.

The Netherlands desires to upgrade additional MK 48 Mod 4 torpedoes to the MK 48 Mod 7 AT model. They intend to use the MK 48 Mod 7 AT torpedo on their Walrus Class submarines. The Netherlands will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractor will be Raytheon Company, Portsmouth, RI. The Netherlands may require offset agreements in connection with this potential sale. Any offset agreement will be defined in negotiations between the Purchaser and the prime contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Netherlands. Travel of U.S. Government or contractor representatives to the Netherlands on a temporary basis for program technical support and management oversight will be required.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 19–75

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The Mod 7 configuration is the United States Navy's most capable submarine launched torpedo. It has a new sonar receiver that has a broader bandwidth capability than previous versions, and also employs a new tactical processor that has increased memory and throughput. The Mod 7AT configuration has the same guidance and control system and the same software as the Mod 7. However, it employs the Mod 4M afterbody which results in higher radiated noise.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the Netherlands can provide substantially the same degree of protection for the technology being released as the U.S. Government. This proposed sustainment program is necessary to the furtherance of the U.S. foreign policy and national security objectives as outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the Netherlands.

BILLING CODE 5001–06–P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD–2020–OS–0031]

Privacy Act of 1974; System of Records

AGENCY: Office of the Under Secretary of Defense (Comptroller), Department of Defense (DoD).

ACTION: Notice of a new System of Records.

SUMMARY: The Office of the Under Secretary of Defense (Comptroller) proposes to add a System of Records titled, “Defense Repository for Common

Enterprise Data (DRCED),” DUSDC 01. This system will automate financial and business transactions, perform cost-management analysis, produce oversight and audit reports, and provide critical data linking to improve performance of mission objectives. Congress mandated the creation of this system through the National Defense Authorization Act of 2018 and then codified it by statute as “Defense Business Systems: Business Process Reengineering; Enterprise Architecture; Management.” The DRCED’s purpose is to improve the Department’s defense business enterprise by synchronizing and normalizing data for affordability, performance, and mission readiness. To achieve this, the DRCED will optimize technology to provide an enterprise solution for integrating and analyzing targeted data from existing Department systems to develop timely, actionable, and insightful conclusions in support of national strategies. Also, DRCED is capable of creating predictive analytic models based upon specific data streams to equip decision makers with critical data necessary for execution of fiscal and operational requirements.

DATES: This new System of Records is effective upon publication; however, comments on the Routine Uses will be accepted on or before April 16, 2020. The Routine Uses are effective at the close of the comment period.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

* *Federal Rulemaking Portal*: <https://www.regulations.gov>.

Follow the instructions for submitting comments.

* *Mail*: Department of Defense, Office of the Chief Management Officer, Directorate for Oversight and Compliance, 4800 Mark Center Drive, Mailbox #24, Suite 08D09, Alexandria, VA 22350–1700.

Instructions: All submissions received must include the agency name and docket number for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <https://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Ms. Cynthia B. Stanley, Department of Defense, Office of the Chief Management Officer, Directorate for Oversight and Compliance, 4800 Mark Center Drive, Mailbox #24, Suite 08D09,
