Comments Due: 5 p.m. ET 3/20/20.

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER19–2717–000.

Applicants: Madison ESS, LLC.

Description: Report Filing: Madison ESS Supplemental Refund Report Filing to be effective N/A.

Filed Date: 3/10/20.

Accession Number: 20200310–5000.

Comments Due: 5 p.m. ET 3/31/20.

Docket Numbers: ER20–793–001.

Applicants: American Transmission Systems, Incorporated, PJM Interconnection, L.L.C.

Description: Tariff Amendment: ATSI submits Revised ECSAs, Service Agreement No. 5390 and 5516 to be effective 3/14/2020.

Filed Date: 3/10/20.

Accession Number: 20200310–5158.

Comments Due: 5 p.m. ET 3/20/20.

Docket Numbers: ER20–971–001.

Applicants: Midcontinent Independent System Operator, Inc.

Description: Tariff Amendment: 2020–03–10_SA 3421 MEC-Heartland Divide Wind II Substitute GIA (J583) to be effective 1/28/2020.

Filed Date: 3/10/20.

Accession Number: 20200310–5134.

Comments Due: 5 p.m. ET 3/31/20.

Docket Numbers: ER20–972–001.

Applicants: Midcontinent Independent System Operator, Inc.

Description: Tariff Amendment: 2020–03–11_SA 3422 ITC-Three Waters Wind Farm Substitute GIA (J720) to be effective 1/28/2020.

Filed Date: 3/11/20.

Accession Number: 20200311–5041.

Comments Due: 5 p.m. ET 4/1/20.

Docket Numbers: ER20–991–001.

Applicants: Midcontinent Independent System Operator, Inc.

Description: Tariff Amendment: 2020–03–11_SA 1495 NSP-Walleye Wind Substitute 1st Rev GIA (G253 J569) to be effective 1/29/2020.

Filed Date: 3/11/20.

Accession Number: 20200311–5090.

Comments Due: 5 p.m. ET 4/1/20.

Docket Numbers: ER20–1223–000.

Applicants: PJM Interconnection, L.L.C.

Description: § 205(d) Rate Filing: Amendment to ISA, SA No. 5422; Queue No. AC1–158 to be effective 6/14/2019.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP20–37–000]

Texas Eastern Transmission, LP; Notice of Schedule for Environmental Review of the Lilly Compressor Units Replacement Project

On January 10, 2020, Texas Eastern Transmission, LP filed an application in Docket No. CP20–37–000 requesting a Certificate of Public Convenience and Necessity pursuant to Sections 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities in Cambria County, Pennsylvania. The proposed project is known as the Lilly Compressor Unit Replacement Project (Project) and consists of Texas Eastern Transmission, LP's proposed replacement of four existing compressor units at the Lilly Compressor Station with two new more efficient turbine units.

On January 22, 2020, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance

of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA June 5, 2020
90-day Federal Authorization Decision
Deadline September 3, 2020

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Lilly Compressor Units Replacement Project would comprise replacing the four existing gas turbine units totaling 34,800 horsepower (hp) with two new, more efficient, 18,100 hp gas turbine units. Software controls would be installed on the two new units to limit the total station hp to 34,800 hp, keeping the delivery capacity at the station the same. The Project also involves the construction of a new compressor building to house the two new compressor units. All facilities are located in Cambria County, Pennsylvania.

Background

On February 25, 2020, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Lilly Compressor Units Replacement Project and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received no comments to date. All substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the

eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP20-37), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: March 11, 2020.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2221-041]

Empire District Electric Company; Notice of Application Tendered for Filing With the Commission and Establishing Procedural Schedule for Licensing and Deadline for Submission of Final Amendments

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

- a. *Type of Application:* New Major License.
- b. *Project No.:* 2221-041.
- c. *Date Filed:* February 28, 2020.
- d. *Applicant:* Empire District Electric Company (Empire District).
- e. *Name of Project:* Ozark Beach Hydroelectric Project (Ozark Beach Project).
- f. *Location:* The existing project is located on the White River in Taney County, Missouri. The project occupies 5.1 acres of United States lands administered by the U.S. Army Corps of Engineers (Corps).
- g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791 (a)-825(r).
- h. *Applicant Contact:* Tim Wilson, Strategic Projects and Energy Supply, Empire District Electric Company, 602 South Joplin Avenue, P.O. Box 127, Joplin, MO 64802, (913) 458-6437 or timpedccccc@by.com; and Randy Richardson, Plant Manager, Empire District Electric Company, 2537 Fir Road, Sarcovie, MO 64862, (417) 625-6138 or RRichardson@libertyutilities.com.
- i. *FERC Contact:* Colleen Corballis at (202) 502-8598 or email at colleen.corballis@ferc.gov.

j. This application is not ready for environmental analysis at this time.

k. *The Ozark Beach Project consists of the following existing facilities:* (1) 2,200 acre Lake Taneycomo with a gross storage capacity of 22,000 acre-feet and a usable storage capacity of 6,500 acre-feet at a water surface elevation of 701.35 feet National Geodetic Vertical Datum of 1929; (2) a 1,273-foot-long, 53-foot-high dam consisting of, from west to east: (a) A 420-foot-long earth fill embankment, (b) a 575-foot-long concrete overflow spillway topped with 32 Obermeyer gates, (c) an 18-foot-long concrete overflow spillway, (d) an integral 210-foot-long reinforced concrete powerhouse, and (e) a 50-foot-long concrete non-overflow section; (3) a 210-foot-long, 80-foot-wide, 92-foot-high reinforced concrete integral powerhouse with an operating head of 50 feet; (4) trash racks at the entrance to intakes; (5) four 7,250 horsepower vertical-shaft Francis-type turbines with a total capacity of 29,000 horsepower, each couple to a 4.0 megawatt (MW) generator with a total capacity of 16.0 MW; (6) a 200-foot-long, 4,600-volt overhead transmission line connected to a three phase 22,400-kilovolt ampere 4,600 to 161,000-volt step-up transformer that connects to Empire District Electric Company's 161,000-volt transmission system; and (7) appurtenant facilities.

The existing Ozark Beach Project is situated between two multipurpose projects that are owned by the Corps. The Table Rock Project, which is immediately upstream of the Ozark Beach Project, is operated in a peaking mode based on regional demand requirements. The Ozark Beach Project discharges directly into the Bull Shoals Project reservoir, which is immediately downstream. Using the storage in Lake Taneycomo, the Ozark Beach Project is operated based on various conditions including closely matching the releases of the upstream Table Rock Project, market pricing, Lake Taneycomo water level, Bull Shoals water level and rainfall. The Ozark Beach Project has an estimated annual energy production of about 50,768 megawatt hours. Empire District proposes to continue to operate using the storage in Lake Taneycomo. Empire District does not propose any new construction.

Empire District proposes to modify the project boundary by removing 6,021 acres from the existing area of 8,267 acres for a proposed project boundary of 2,246 acres. Empire District's proposal would reduce the existing area of United States lands administered by the Corps from 5.1 acres to 0.64 acres.
