Title of Collection: Federal Direct Loan Program and Federal Family

Education Loan Program Teacher Loan Forgiveness Forms.

OMB Control Number: 1845–0059.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 8,700.

Total Estimated Number of Annual Burden Hours: 2,871.

Abstract: The Teacher Loan Forgiveness (TLF) Application serves as the means by which an eligible Direct Loan or FFEL program borrower who has completed five consecutive years of qualifying teaching service applies for forgiveness of up to \$5,000 or up to \$17,500 of his or her eligible loans. Eligible special education teachers and secondary school math or science teachers may receive a maximum of \$17,500 in loan forgiveness. Other teachers may receive a maximum of \$5,000 in loan forgiveness. Borrowers who are working toward loan forgiveness may use the TLF Forbearance Request to request a forbearance during some or all of their required five consecutive years of teaching service. A prospective TLF applicant may receive a forbearance during some or all of the five-year teaching period only if the projected balance on the borrower's eligible loans at the end of the five-year period (if the borrower made monthly loan payments during that period) would be less than the maximum forgiveness amount for which the borrower qualifies.

SUPPLEMENTARY INFORMATION: Cameron LNG requests a short-term blanket authorization to export LNG from the Cameron LNG Terminal to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy. This includes both countries

with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries), and any other country with which trade is not prohibited by U.S. law or policy (non-FTA countries). This Notice applies only to the portion of the Application (as supplemented) requesting authority to export domestically produced LNG to non-FTA countries pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a).¹ DOE/FE will review Cameron LNG's request for a FTA export authorization separately pursuant to section 3(c) of the NGA, 15 U.S.C. 717b(c).

Cameron LNG's requests this authorization on its own behalf and as agent for other entities who hold title to the LNG at the time of export. Additional details can be found in the Application and Supplement, posted on the DOE/FE website at: <https://www.energy.gov/fe/downloads/cameron-lng-llc-fe-dkt-no-20-14-lng>.

DOE/FE Evaluation

In reviewing Cameron LNG's request, DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider the study entitled, *Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports (2018 LNG Export Study)*,² and DOE/FE's response to public comments received on that Study.³

Additionally, DOE will consider the following environmental documents:
