SUPPLEMENTARY INFORMATION:

Background: The American Manufacturing Competitiveness Act of 2016 (the Act), 19 U.S.C. 1332 note, established a process for the submission and consideration of requests for temporary duty suspensions and reductions. Section 3(b)(1) of the Act requires the Commission to initiate the process by publishing a notice requesting members of the public who can demonstrate that they are likely beneficiaries of duty suspensions or reductions to submit petitions and Commission disclosure forms to the Commission. The Commission published this notice in the **Federal Register** on October 11, 2019 (84 FR 54924). Consistent with Section 3(b)(1) of the Act, the notice required that petitions be submitted by the close of business on December 10, 2019.

Under Section 3(b)(3)(A) of the Act, within 30 days of the expiration of the period for filing petitions, the Commission must publish on its website the petitions received that contain the information required by the Act. Under section 3(b)(3)(B) of the Act, the Commission must also publish a notice in the **Federal Register** requesting members of the public to submit comments to the Commission on the petitions published on the Commission's website. On January 10, 2020, the Commission both published the petitions received on its website and published the required notice in the **Federal Register** (85 FR 1327) requesting members of the public to submit comments on those petitions no later than the close of business on February 24, 2020.

Section 3(b)(3)(B)(ii) of the Act requires the Commission to publish a notice in the **Federal Register** directing members of the public to a publicly available Commission website to view the comments on the petitions by members of the public that the Commission received. This notice satisfies that requirement. Members of the public may view those comments on the Commission's website at <https://mtbps.usitc.gov>.

The Commission is now preparing the reports that it is required to submit, under section 3(b)(3)(C) and (E) of the Act, to the House Committee on Ways and Means and the Senate Committee on Finance (the Committees) on the petitions for duty suspensions and reductions submitted. The Commission will submit its preliminary report to the Committees in June 2020 and its final report in August 2020. In preparing these reports, the Commission will consider the petitions and comments submitted, the report that the U.S. Department of Commerce (in consultation with U.S. Customs and Border Protection and other relevant Federal agencies) submits to the Commission under section 3(c) of the Act, and any other information that it considers appropriate.

By order of the Commission.

Issued: March 17, 2020.

Secretary to the Commission.

[Investigation Nos. 701-TA-616-617 and 731-TA-1432-1434 (Final)]

Fabricated Structural Steel From Canada, China, and Mexico

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that an industry in the United States is not materially injured or threatened with material injury by reason of imports of fabricated structural steel from Canada, China, and Mexico, provided for in subheadings 7308.90.95, 7308.90.30, and 7308.90.60 of the Harmonized Tariff Schedule of the United States, that have been found by

the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”), and to be subsidized by the governments of China and Mexico.²

Background

The Commission instituted these investigations effective February 4, 2019, following receipt of petitions filed with the Commission and Commerce. The petitioner in these investigations is the American Institute of Steel Construction, LLC Full Member Subgroup, Chicago, Illinois. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of fabricated structural steel from China and Mexico were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and sold at LTFV within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)).³ Notice of the scheduling of the final phase of the Commission’s investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on September 23, 2019 (84 FR 49765). The hearing was held in Washington, DC, on January 28, 2020, and all persons who requested the opportunity were permitted to appear in person or by counsel. On January 30, 2020, Commerce gave notice in the **Federal Register** of affirmative final determinations of sales at LTFV in its investigations regarding Canada, China, and Mexico, affirmative final determinations in its countervailing duty investigations regarding China and Mexico, and a negative final determination in its countervailing duty investigation concerning Canada. Accordingly, the Commission terminated its countervailing duty investigation concerning fabricated structural steel from Canada (85 FR 8321).

The Commission made these determinations pursuant to sections 705(b) and 735(b) of the Act (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on March 16, 2020. The views of the Commission are contained in USITC Publication 5031

² Commissioners Rhonda K. Schmidlein and Amy A. Karpel dissenting.

³ Commerce made negative preliminary determinations with respect to imports of fabricated structural steel from Canada which were alleged to be sold at LTFV (84 FR 47481) and subsidized by the government of Canada (84 FR 33232).
