Background

On May 18, 2015, the Department of Education (Department) published in the **Federal Register** (80 FR 28248) a notice inviting applications for projects for fiscal year (FY) 2015 under the Predominantly Black Institutions (PBI) Competitive Grant program authorized under Title III, Part F, Section 371 of the Higher Education Act of 1965, as amended (HEA). The purpose of the PBI program is to strengthen PBIs to carry out programs in the following areas: Science, technology, engineering, or mathematics; health education; internationalization or globalization; teacher preparation; or improving educational outcomes of African-American males.

In September 2015, the Department made 23 60-month awards to eligible institutions funded by the PBI Program as follows:

Institution	State
University of West Alabama	AL.
Arkansas State University	AR.
Pulaski Technical College	AR.
South Georgia Technical College	GA.
Albany Technical College	GA.
Oconee Fall Line Technical College	GA.
Augusta Technical College	GA.
Central Georgia Technical College	GA.
Georgia State University	GA.
Malcolm X College	IL.
Olive Harvey College	IL.
Chicago State University	IL.
Mississippi Delta Community College	MS.
Halifax Community College	NC.
Bloomfield College	NJ.
Medgar Evers College	NY.
York College	NY.
Community College of Philadelphia ..	PA.
Northeastern Technical College	SC.
Florence-Darlington Technical College ..	SC.
Central Carolina Technical College ..	SC.
Southwest Tennessee Community College ..	TN.
Cedar Valley College	TX.

All current project periods for these grantees end on September 30, 2020.

Waivers and Extensions

We are proposing to extend the 23 PBI projects in order to align and coordinate the funding cycles of all discretionary grant programs authorized under Title III, Part F, Section 371 of the Higher Education Act of 1965 (HEA). With the proposed extension, the PBI Program would align with (1) the Alaska Native and Native Hawaiian-serving

Institutions program; (2) the Asian American and Native American Pacific Islander-serving program; (3) the Native American-serving Non-Tribal Institutions program; and (4) the Hispanic-Serving Institutions Science, Technology, Engineering, and Mathematics and Articulation Program (HSI-STEM). The waivers and extensions would allow the Department to align and coordinate the award cycles of the Title III, Part F programs, and improve the efficiency and cost-effectiveness of direct training and technical assistance services focused on the competitive strengthening institutions programs. In addition, the Department will consider approaches for improving coordination among programs that provide these services to more efficiently and effectively meet the needs of these institutions and to allow for efficient use of the funding available to support these activities.

We do not believe that it would be in the public interest to run a competition for this program in FY 2020. The program has remaining FY 2019 appropriated funds to be carried over to the current FY 2020 grant cycle and would continue on an award cycle that would not coordinate with the Department's existing part F discretionary grant programs.

The Department has also concluded that it would not be in the public interest to run two consecutive program competitions with the first using the appropriated 2019 carry over funds and the second using the funds appropriated by H.R. 2486, the Fostering Undergraduate Talent by Unlocking Resources for Education (FUTURE) Act, because doing so would increase the burden on the potential applicants.

For these reasons, the Secretary proposes to waive the requirements in 34 CFR 75.250, which prohibit project periods exceeding five years, and the requirements in 34 CFR 75.261(a) and (c)(2), which allow the extension of a project period only if the extension does not involve the obligation of additional Federal funds. The waiver would allow the Department to issue one-time FY 2020 continuation awards to the current PBI Program grantees estimated as follows:

Institution	State	Award
University of West Alabama.	AL	\$414,672
Arkansas State University.	AR	599,996
Pulaski Technical College.	AR	599,856
South Georgia Technical College.	GA	600,000

Institution	State	Award
Albany Technical College.	GA	600,000
Oconee Fall Line Technical College.	GA	545,459
Augusta Technical College.	GA	591,493
Central Georgia Technical College.	GA	596,148
Georgia State University.	GA	600,000
Malcolm X College	IL	590,500
Olive Harvey College ..	IL	543,246
Chicago State University.	IL	600,000
Mississippi Delta Community College.	MS	600,000
Halifax Community College.	NC	600,000
Bloomfield College	NJ	600,000
Medgar Evers College	NY	600,000
York College	NY	600,000
Community College of Philadelphia.	PA	600,000
Northeastern Technical College.	SC	599,252
Florence-Darlington Technical College.	SC	599,993
Central Carolina Technical College.	SC	599,921
Southwest Tennessee Community College.	TN	600,000
Cedar Valley College ..	TX	467,126

Any activities carried out during the year of this continuation award must be consistent with the scope, goals, and objectives of the grantees' applications as approved in the 2015 competition. The requirements for continuation awards are set forth in 34 CFR 75.253.

Regulatory Flexibility Act Certification

The Secretary certifies that the proposed waiver and extension of the project period would not have a significant economic impact on a substantial number of small entities. The only entities that would be affected by the proposed waiver and extension of the project period are the current grantees and any other potential applicants.

The Secretary certifies that the proposed waiver and extension would not have a significant economic impact on these entities because the extension of an existing project period imposes minimal compliance costs, and the activities required to support the additional year of funding would not impose additional regulatory burdens or require unnecessary Federal supervision.

Paperwork Reduction Act of 1995

This notice of proposed waiver and extension of the project period does not contain any information collection requirements.

Intergovernmental Review

These programs are subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance. This document provides early notification of our specific plans and actions for this program.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA.

I. Why is EPA proposing to remove Ohio’s nuisance rule from the SIP?

The CAA was first enacted in 1970. Section 110(a)(1) required each state to submit to EPA SIPs that provided for the implementation, maintenance and

enforcement of the NAAQS. In the 1970s and early 1980s, thousands of state and local agency regulations were submitted to EPA for incorporation into the SIP to fulfill the new Federal requirements. In many cases, states submitted entire regulatory air pollution programs, including many elements not required by the CAA. Due to time and resource constraints, EPA’s review of these submittals focused primarily on the rules addressing the new substantive requirements of the CAA, and we approved many other elements into the SIP with minimal review. We now recognize that some of these elements are appropriate for state and local agencies to adopt and implement, but not as federally enforceable SIP requirements. These include rules that prohibit air pollution nuisances. Such rules generally have no connection to the purposes for which SIPs are developed and approved, namely the implementation, maintenance, and enforcement of the NAAQS.

II. What is EPA’s authority to correct errors in SIP rulemakings?

Section 110(k)(6) of the CAA provides EPA with authority to make corrections to prior SIP actions that are subsequently found to be in error in the same manner as the prior action, and to do so without requiring any further submission from the state. This determination and the basis must be provided to the state and the public.

III. Which rule is EPA proposing to remove?

Ohio rule AP-2-07, “Air pollution nuisances prohibited,” was approved by EPA into the Ohio SIP on April 15, 1974. See 39 FR 13542. Subsequently, Ohio amended and renumbered the rule as OAC 3745-15-07 and submitted it as a revision to the SIP. EPA approved the amended provision on August 13, 1984. See 49 FR 32182. OAC 3745-15-07 prohibits the “emission or escape into the open air from any source or sources whatsoever, of smoke, ashes, dust, dirt, grime, acids, fumes, gases, vapors, odors, or any other substances or combinations of substances, in such manner or in such amounts as to endanger the health, safety or welfare of the public, or cause unreasonable injury or damage to property.”

EPA has reviewed the docket files regarding Ohio’s nuisance rule and found no information indicating that the state has relied on, or ever intended to rely on, this rule for attainment or
