

United States. The *3.7 GHz Report and Order* calls for the relocation of existing FSS operations in the band into the upper 200 megahertz of the band (4.0–4.2 GHz) and making the lower 280 megahertz (3.7–3.98 GHz) available for flexible-use throughout the contiguous United States through a Commission-administered public auction of overlay licenses that is scheduled to occur later this year, with the 20 megahertz from 3.98–4.0 GHz reserved as a guard band.

The Commission adopted a robust transition schedule to achieve an expeditious relocation of FSS operations and ensure that a significant amount of spectrum is made available quickly for next-generation wireless deployments, while also ensuring effective accommodation of relocated incumbent users. The *3.7 GHz Report and Order* establishes a deadline of December 5, 2025, for full relocation to ensure that all FSS operations are cleared in a timely manner, but provides an opportunity for accelerated clearing of the band by allowing incumbent space station operators, as defined in the *3.7 GHz Report and Order*, to commit to voluntarily relocate on a two-phased accelerated schedule (with additional obligations and incentives for such operators), with a Phase I deadline of December 5, 2021, and a Phase II deadline of December 5, 2023.

The Commission concluded in the *3.7 GHz Report and Order* that, before the public auction of overlay licenses commences, it is appropriate for potential bidders to know when they will get access to the spectrum in the 3.7–3.98 GHz band that is currently occupied by incumbent FSS space station operators and earth stations, as defined in the *3.7 GHz Report and Order*, and to have an estimate of how much they may be required to pay for incumbent relocation costs and accelerated relocation payments should they become overlay licensees, as overlay licensees are required to pay for the reasonable relocation costs of incumbent space station and incumbent earth station operators that are required to clear the lower portion of the band.

Under this new information collection, the Commission will collect information that will be used by the Commission to determine when, how, and at what cost existing operations in the lower portion of the 3.7–4.2 GHz band will be relocated to the upper portion of the band. Specifically, the Commission collect the following information from incumbents as adopted in the *3.7 GHz Report and Order*:

Accelerated Relocation Elections

The Commission concluded in the *3.7 GHz Report and Order* that overlay licensees would only value accelerated relocation if a significant majority of incumbents are cleared in a timely manner, and therefore determined that at least 80% of accelerated relocation payments must be accepted in order for the Commission to accept accelerated elections and require overlay licensees to pay accelerated relocation payments. The *3.7 GHz Report and Order* calls for an eligible space station operator, as defined in the *3.7 GHz Report and Order*, that chooses to commit to clear on the accelerated schedule in exchange for accelerated relocation payments to submit a written, public, irrevocable accelerated relocation election with the Commission by May 29, 2020, to permit the Commission to determine whether there are sufficient accelerated relocation elections to trigger early relocation and in turn provide bidders with adequate certainty regarding the clearing date and payment obligations associated with each license well in advance of the auction.

Transition Plans

The *3.7 GHz Report and Order* requires each eligible space station operator to submit to the Commission by June 12, 2020, and make available for public review, a detailed transition plan describing the necessary steps and estimated costs for the eligible space station operator to complete the transition of existing operations in the lower portion of the 3.7–4.2 GHz band to the upper 200 megahertz of the band and its individual timeline for doing so consistent with the regular relocation deadline or by the accelerated relocation deadlines. An eligible space station operator that elects to receive accelerated relocation payments is responsible for relocating all of its associated incumbent earth stations and must outline the details of such relocation in the transition plan (unless an incumbent earth station owner elects to receive a lump sum payment and assumes responsibility for transitioning its own earth stations). Similarly, an incumbent space station operator that does not elect to receive accelerated relocation payments but nevertheless plans to assume responsibility for relocating its own associated incumbent earth stations must make that clear in its transition plan.

Incumbent Earth Station Lump Sum Payment Elections

The *3.7 GHz Report and Order* provides an incumbent earth station

operator with the option of accepting reimbursement payments for its reasonable relocation costs for the transition, or opting out of the formal relocation process and accepting a lump sum reimbursement payment for all of its incumbent earth stations based on the average, estimated costs of relocating all of their incumbent earth stations in lieu of actual relocation costs. The *3.7 GHz Report and Order* directs the Wireless

Telecommunications Bureau to announce the lump sum that will be available per incumbent earth station as well as the process for electing lump sum payments and requires that no later than 30 days after this announcement, an incumbent earth station operator that wishes to receive a lump sum payment make an irrevocable lump sum payment election that will apply to all of its earth stations in the contiguous United States.

This information collection will serve as the starting point for planning and managing the process of efficiently and expeditiously clearing of the lower portion of the band, so that this spectrum can be auctioned for flexible-use service licenses.

FEDERAL MARITIME COMMISSION

Notice of Agreements Filed

The Commission hereby gives notice of the filing of the following agreements under the Shipping Act of 1984. Interested parties may submit comments, relevant information, or documents regarding the agreements to the Secretary by email at Secretary@fmc.gov, or by mail, Federal Maritime Commission, Washington, DC 20573. Comments will be most helpful to the Commission if received within 12 days of the date this notice appears in the **Federal Register**. Copies of agreements are available through the Commission's website (www.fmc.gov) or by contacting the Office of Agreements at (202)-523-5793 or tradeanalysis@fmc.gov.

Agreement No.: 201336.

Agreement Name: Crowley/King Ocean Space Charter Agreement.

Parties: Crowley Caribbean Services LLC and King Ocean Services Limited, Inc.

Filing Party: Wayne Rohde; Cozen O'Connor.

Synopsis: The Agreement authorizes King Ocean to charter space to Crowley

in the trade between the U.S. East Coast on the one hand and Grenada and St. Vincent on the other hand.

Proposed Effective Date: 4/27/2020.

Location: <https://www2.fmc.gov/FMC.Agreements.Web/Public/AgreementHistory/27482>.

Agreement No.: 201337.

Agreement Name: Glovis/CSAV East Coast United States to South America West Coast Space Charter Agreement.

Parties: Hyundai Glovis Co., Ltd. and Compania Sud Americana de Vapores S.A.

Filing Party: Wayne Rohde; Cozen O'Connor.

Synopsis: The Agreement authorizes Glovis to charter space to CSAV in the trade between ports on the East Coast of the United States and ports on the West Coast of South America.
