[Docket No. CP20-21-000]

#### Port Arthur Pipeline, LLC; Notice of Schedule for Environmental Review of the Louisiana Connector Amendment Project

On December 9, 2019, Port Arthur Pipeline, LLC filed an application in Docket No. CP20-21-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the Port Arthur Louisiana Connector Amendment Project (Project), and consists of relocating a compressor station site previously approved in the Louisiana Connector Project (Docket No. CP18-7-000) in Allen Parish, Louisiana. Port Arthur Pipeline, LLC, currently proposes to construct the compressor station, along with associated interconnect and metering facilities, in Beauregard Parish, Louisiana. The Project would also increase the design capacity of the compressor station from 89,900 horsepower (hp) to 93,880 hp, and increase the capacity of the previously certificated Louisiana Connector Project from 1.98 billion standard cubic feet per day of natural gas to 2.05 billion standard cubic feet per day of natural gas deliverable to the Port Arthur Liquefaction Project, previously approved by the Commission in Docket No. CP17-20-000.

On December 20, 2019, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.
