CISA's Methodology in Estimating the Burden for the Chemical-Terrorism Vulnerability Information Authorization

Number of Respondents

The current information collection estimated that 20,000 respondents submit a request to become a CVI Authorized User Number annually. The table below provides the number of respondents over the past three years (*i.e.*, Fiscal Year (FY) 2017 through FY 2019).

	FY 2017	FY 2018	FY 2019
Number of Respondents	19,392	16,504	13,667

Due to past fluctuations and uncertainty regarding the number of future respondents, CISA believes that 20,000 continues to be a reasonable estimate. Therefore, CISA proposes to retain the estimated annual number of respondents.

Estimated Time per Respondent

In the current information collection, the estimated time per respondent to prepare and submit a CVI Authorization is 0.50 hours (30 minutes). CISA proposes to retain the estimated time per respondent.

Annual Burden Hours

The annual burden hours for the CVI Authorization is [0.50 hours × 20,000 respondents × 1 response per respondent], which equals 10,000 hours.

Total Capital/Startup Burden Cost

CISA provides access to CSAT free of charge and assumes that each respondent already has computer hardware and access to the internet for basic business needs. Therefore, there are no annualized capital or start-up costs incurred by chemical facilities of interest or high-risk chemical facilities for this information collection.

Total Recordkeeping Burden

There are no recordkeeping burden costs incurred by chemical facilities of interest or high-risk chemical facilities for this information collection.

Total Annual Burden Cost

CISA assumes that the majority of individuals who will complete this instrument are Site Security Officers (SSOs), although a smaller number of

other individuals may also complete this instrument (*e.g.*, Federal, State, and local government employees and contractors). For the purpose of this notice, CISA maintains this assumption. Therefore, to estimate the total annual burden, CISA multiplied the annual burden of 10,000 hours by the loaded average hourly wage rate of SSOs of \$79.75 per hour.⁶ Therefore, the total annual burden cost for the CVI Authorization instrument is \$797,474 [10,000 total annual burden hours × \$79.75 per hour].
