

Analyses.” The purpose of the document is to define and describe best practices for economic analysis grounded in the economics literature. It also describes Executive Orders and other documents that impose analytic requirements and provides detailed information on selected important topics for economic analyses.

Availability of Meeting Materials: All meeting materials, including the agenda will be available prior to the meetings on the SAB web page at <http://epa.gov/sab>.

Procedures for Providing Public Input: Public comment for consideration by EPA’s federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the committee’s charge or meeting materials. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for the SAB to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should follow the instruction below to submit comments.

Oral Statements: In general, individuals or groups requesting an oral presentation at a public teleconference will be limited to three minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Persons interested in providing oral statements should contact the DFO, in writing (preferably via email) at the contact information noted above, to be placed on the list of registered speakers by April 15, 2020.

Written Statements: Written statements will be accepted throughout the advisory process; however, for timely consideration by SAB members, statements should be received in the SAB Staff Office by April 15, 2020. Written statements should be supplied to the DFO at the contact information above via email (preferred) or in hard copy with original signature. Submitters are requested to provide a signed and unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites. Members of the public should be aware that their personal

contact information, if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact the DFO, at the contact information noted above, preferably at least ten days prior to the meeting, to give the EPA as much time as possible to process your request.

V. Khanna Johnston,

Deputy Director, EPA Science Advisory Board Staff Office.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OECA–2013–0547; FRL–10006–22–OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Performance Evaluation Studies on Wastewater Laboratories (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Performance Evaluation Studies on Wastewater Laboratories (EPA ICR Number 0234.13, OMB Control Number 2080–0021) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2020. Public comments were previously requested via the **Federal Register** on October 9, 2019 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 30, 2020.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2013–0547, to (1) EPA online using www.regulations.gov (our preferred method), by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental

Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Gregory Savitske, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564–2601; fax number: (202) 564–0050; email address: savitske.gregory@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: Discharge Monitoring Report–Quality Assurance (DMR–QA) study program participation is mandatory for major and selected minor National Pollutant Discharge Elimination System (NPDES) permit holders in accordance with Clean Water Act Section 308. The DMR–QA study program is designed to evaluate the analytic ability of laboratories that perform chemical, microbiological and whole effluent toxicity (WET) analyses required in NPDES permits for reporting results in the Discharge Monitoring Reports (DMR). Under DMR–QA, the permit holder is responsible for having their in-house and/or contract laboratories analyze performance evaluation samples and submit results to proficiency testing (PT) providers for grading. Graded results are transmitted by either the permit holder or PT provider to the appropriate federal or state NPDES permitting authority. Permit holders are responsible for submitting corrective action reports to the appropriate permitting authority.

Form Numbers: EPA Form 6400–01.

Respondents/affected entities: Major and selected minor permit holders under the Clean Water Act's National Pollutant Discharge Elimination System (NPDES).

Respondent's obligation to respond: Mandatory under Clean Water Act Section 308(a).

Estimated number of respondents: 5,500 (total).

Frequency of response: Annually, On occasion.

Total estimated burden: 36,300 hours (per year) hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$5,368,055 (per year), includes \$3,375,790 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 1,320 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to a slight decrease of NPDES major permit holders over the last three years. Non-labor costs for obtaining performance evaluation samples increased.

Courtney Kerwin,

Director, Regulatory Support Division.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Clean Air Act requires that on-highway vehicles and motorcycles, and nonroad vehicles, engines and equipment imported into the U.S. either comply with applicable emission requirements or qualify for an applicable exemption or exclusion. The Compliance Division (CD) in the EPA's Office of Air and Radiation maintains and makes available instruments to importers to help facilitate importation of products at U.S. Borders. EPA Form 3520-1 is used by importers of on-highway vehicles and motorcycles, and EPA Form 3520-21 is used by importers

of nonroad vehicles, engines and equipment.

For most imports, U.S. Customs and Border Protection (CBP) regulations require that EPA Declaration Forms 3520-1 and 3520-21 be filed with CBP at the time of entry. EPA makes both forms available on our website in fillable PDF format (<http://www.epa.gov/importing-vehicles-and-engines/publications-and-forms-importing-vehicles-and-engines>). While EPA does not require that the forms be submitted directly to EPA, the forms are primarily used by CBP to facilitate the importation process at U.S. borders.

In 2016, CBP deployed the Automated Commercial Environment (ACE). ACE has become the primary system through which the trade community and other importers report imports and exports. Through ACE as the single point of submission, manual processes have been streamlined and automated, and paper submissions (e.g. fillable PDFs) have been significantly reduced. During the development of ACE, EPA worked with CBP to incorporate the information detailed on both EPA Declaration Forms 3520-1 and 3520-21 into ACE which effectively eliminates the forms as unique individual documents that are to be filled in and filed with CPB. Rather, importers will log into ACE and check boxes that correspond to information elements currently found on the forms. Filers using the ACE interface will also receive transaction information that will be kept by the filer. However, EPA will continue to maintain the forms on our website in fillable PDF format. Although importers are expected to use the ACE interface to submit information, the PDF versions of the form can also be submitted directly into ACE by importers.

EPA also makes available upon request EPA Form 3520-8 for on-highway vehicles. This form is used by independent commercial importers (ICIs) to request final admission of nonconforming vehicles.

Form Numbers: 3520-1, 3520-21, 3520-8.

Frequency of response: Once per entry. (One form per shipment may be used.)

Respondents/affected entities: Individual importers, or companies who import and/or manufacture on-highway vehicles and motorcycles and nonroad engines, vehicles, and equipment.

Respondent's obligation to respond: Required for any importer to legally import on-highway vehicles and motorcycles and nonroad engines, vehicles, and equipment into the U.S.

Estimated number of respondents: 14,810.
