(2) What consideration should be given to urban versus rural areas, regional versus statewide or multi-State accelerators?

(3) Given the appropriated amount (\$5 million), what would be the optimum range and most effective number of awards for regional accelerators? What would be an appropriate size program to consider in addressing the needs of priority infrastructure projects in rural areas?

Qualifications

(1) What resources, competencies and experience would be required from and within an accelerator? The approach should consider the resources required in accelerating the development of smaller rural projects and assisting inexperienced or under-resourced regions.

(2) If external resources and expertise would be contemplated, what would be the acquisition strategy while ensuring transparency and accountability?

(3) What is the best way to conduct an effective and transparent selection process? What evaluation criteria should the Bureau consider?

Approach

If new entities are considered, how much time would be needed to stand up a regional accelerator and what would be the major challenges?

(3) How could an accelerator leverage the Federal funding beyond the initial Federal support? If feasible, could a standalone, self-funded and sustainable model continue to deliver the intended benefits under the Program?

(4) Rural transportation infrastructure is of critical interest to the Department. How could Regional Infrastructure Accelerators assist in supporting priority programs in the region such as Rural Opportunities to Use

Transportation for Economic Success (ROUTES) and the Bureau's Railroad Rehabilitation & Improvement Financing (RRIF) credit program that further accelerate projects?
