

and reduce wetland impacts. The existing road crosses the Higgins Farm Superfund Site for approximately 1,819 feet, terminating at an enclosed groundwater remediation system operated by the U.S. Environmental Protection Agency. Transco would not modify the existing road, but would extend the road approximately 1,213 feet to the compressor station site. Approximately 331 feet of the extension would occur on the Higgins Farm Superfund Site and the remaining 882 feet would occur on land owned by Transco.

Background

On February 19, 2020, the Commission issued a *Notice of Intent to Prepare an Environmental Document for a Proposed Amendment of the Northeast Supply Enhancement Project and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received one comment letter related to the Higgins Farm Access Road from the Eastern Environmental Law Center. All substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP20-49), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: March 25, 2020.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP19-495-000]

Double E Pipeline, LLC; Notice of Availability of the Environmental Assessment for the Proposed Double E Pipeline Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Double E Pipeline Project (Project), proposed by Double E Pipeline, LLC (Double E) in the above-referenced docket. Double E filed an application in Docket No. CP19-495-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. Double E requests authorization to construct and operate approximately 135 combined miles of varying diameter trunk-lines and lateral pipeline connecting the Delaware Basin production areas in New Mexico and Texas to the Waha Hub. The proposed trunkline and lateral pipelines run through Eddy County, New Mexico and Loving, Ward, Reeves, and Pecos Counties, Texas.

The EA assesses the potential environmental effects of the construction and operation of the Double E Pipeline Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed Project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Department of Interior Bureau of Land Management (BLM) participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis. The BLM will adopt and use the EA to issue a Right-of-Way Grant and Temporary Use Permits for the portion of the Project on federal lands.

The proposed Double E Pipeline Project includes the following facilities:

- Approximately 33.3 miles of new 30-inch-diameter T100 pipeline from Summit Midstream Partners, LP's existing Lane Processing Plant located in Eddy County, New Mexico, to the proposed Poker Lake Meter Station site, also in Eddy County;

- 84.2 miles of new 42-inch-diameter T200 pipeline from the proposed Poker Lake Meter Station in Eddy County, New Mexico through Loving, Ward, and Reeves Counties, Texas and terminating at the proposed Waha Receiver and Separation site in Reeves County, Texas;

- 1.4 miles of new 42-inch-diameter T300 pipeline from the proposed Double E Waha Receiver and Separation site in Reeves County, Texas to the final delivery locations in Pecos County, Texas; and

- 16.4 miles of new 30-inch-diameter L100 pipeline from the existing Loving Processing Plants to the proposed T100 pipeline in Eddy County, New Mexico.

The Commission mailed a copy of the *Notice of Availability* to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the Environmental Documents page (<https://www.ferc.gov/industries/gas/enviro/eis.asp>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://www.ferc.gov/docs-filing/elibrary.asp>), click on General Search, and enter the docket number in the Docket Number field, excluding the last three digits (*i.e.* CP19-495). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before 5:00 p.m. Eastern Time on April 23, 2020.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to Documents and Filings. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website (www.ferc.gov) under the link to Documents and Filings. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on eRegister. You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the following address. Be sure to reference the project docket number (CP19-495-000) with your submission: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426.

Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214). Motions to intervene are more fully described at <http://www.ferc.gov/resources/guides/how-to-intervene.asp>. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. The Commission may grant affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission,

such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Combined Notice of Filings

Take notice that the Commission has received the following Natural Gas Pipeline Rate and Refund Report filings:

Docket Numbers: RP20-676-000.

Applicants: Natural Gas Pipeline Company of America.

Description: § 4(d) Rate Filing: Amendment to a Negotiated Rate Filing—Mercuria Energy America to be effective 4/1/2020.

Filed Date: 3/24/20.

Accession Number: 20200324-5007.

Comments Due: 5 p.m. ET 4/6/20.

Docket Numbers: RP20-677-000.

Applicants: Transcontinental Gas Pipe Line Company, LLC.

Description: § 4(d) Rate Filing: Rate Schedules LSS and SS-2 Tracker Filing eff 4/1/2020 to be effective 4/1/2020.

Filed Date: 3/24/20.

Accession Number: 20200324-5025.

Comments Due: 5 p.m. ET 4/6/20.

Docket Numbers: RP20-678-000.

Applicants: Enable Gas Transmission, LLC.

Description: § 4(d) Rate Filing: Fuel Tracker Filing—Effective May 1, 2020 to be effective 5/1/2020.

Filed Date: 3/24/20.

Accession Number: 20200324-5028.

Comments Due: 5 p.m. ET 4/6/20.

Docket Numbers: RP20-679-000.

Applicants: Transwestern Pipeline Company, LLC.

Description: § 4(d) Rate Filing: Negotiated Rate Filing (Hartree Partners) filed on 3-24-20 to be effective 4/1/2020.

Filed Date: 3/24/20.

Accession Number: 20200324-5096.

Comments Due: 5 p.m. ET 4/6/20.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified date(s). Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: March 25, 2020.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP20-48-000]

Iroquois Gas Transmission System, L.P.; Notice of Intent To Prepare an Environmental Assessment for the Proposed Enhancement by Compression Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Enhancement by Compression Project involving construction and operation of facilities by Iroquois Gas Transmission System, L.P. (Iroquois) in Greene and Dutchess Counties, New York, and Fairfield and New Haven Counties, Connecticut. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies about issues regarding the project. The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from its action whenever it considers the issuance of a Certificate of
