

after the publication date of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) For previously investigated or reviewed Chinese and non-Chinese exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recently-completed segment of this proceeding; (2) the cash deposit rate for all Chinese manufacturers or exporters of subject merchandise will continue to be 182.90 percent, the China-wide rate determined in the less-than-fair-value investigation; (3) for all non-Chinese exporters of subject merchandise that have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter.¹² These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Order

This notice serves as a preliminary reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

¹² See *Antidumping Duty Order and Amendment to the Final Determination of Sales at Less Than Fair Value; Certain Carbon Steel Butt-Weld Pipe Fittings from the People's Republic of China*, 57 FR 29702 (July 6, 1992).

Notification to Interested Parties

This administrative review and notice are issued and published in accordance with section 751(a)(1) of the Act.

Dated: March 25, 2020.

Jeffrey I. Kessler,

Assistant Secretary, for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Revised Information Collection; Comment Request; Survey To Collect Economic Data From Recreational Anglers Along the Atlantic Coast

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before June 1, 2020.

ADDRESSES: Direct all written comments to Adrienne Thomas, PRA Officer, NOAA, 151 Patton Avenue, Room 159, Asheville, NC 28801 (or via the internet at PRAComments@doc.gov). All comments received are part of the public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Scott Steinback, Economist, Northeast Fisheries Science Center, 166 Water St., Woods Hole, MA 02543. Tel: (508) 495-4701 or scott.steinback@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a revision to a currently approved information collection.

The objective of the original data collection effort under OMB Control Number 0648-0783 was to assess how changes in saltwater recreational fishing regulations affect angler effort, angler welfare, fishing mortality, and future stock levels. That data collection effort focused on anglers who fished for Atlantic cod and haddock off the Atlantic coast from Maine to Massachusetts. Under this revised information collection request, the objective remains the same, but a new survey will be added with the focus on anglers who fish for summer flounder and black sea bass along the Atlantic coast from Massachusetts to North Carolina.

Data collected from this survey will improve our ability to understand and predict how changes in management options and regulations may change fishing mortality and the number of trips anglers take for summer flounder and black sea bass. This data will allow fisheries managers to conduct updated and improved analysis of the socio-economic effects to recreational anglers and to coastal communities of proposed changes in fishing regulations. The recreational fishing community and regional fisheries management councils have requested more species-specific socio-economic studies of recreational fishing that can be used in the analysis of fisheries policies. This survey will address that stated need for more species-specific studies. The population consists of those anglers who fish in saltwater along the Atlantic coast from Massachusetts to North Carolina and who possess a license to fish. A sample of anglers will be drawn from state fishing license frames. The survey will be conducted using both mail and email to contact anglers and invite them to take the survey online. Anglers not responding to the online survey may receive a paper survey in the mail.

II. Method of Collection

The survey will be conducted using two modes: Mail and internet.

III. Data

OMB Control Number: 0648-0783.

Form Number(s): None.

Type of Review: Regular (revision of a currently approved information collection).

Affected Public: Individuals or households.

Estimated Number of Respondents: 2,000.

Estimated Time per Response: 15 minutes

Estimated Total Annual Burden Hours: 500 hours.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 30, 2020.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; West Coast Region Vessel Monitoring System and Pre-Trip Reporting System Requirements

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: To ensure consideration, written or on-line comments must be submitted on or before June 1, 2020.

ADDRESSES: Direct all written comments to Adrienne Thomas, PRA Officer, NOAA, 151 Patton Avenue, Room 159, Asheville, NC 28801 (or via the internet at PRAComments@doc.gov). All comments received are part of the public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Rachael Wadsworth, National Marine Fisheries Service West Coast Region (NMFS WCR), 7600 Sand Point Way NE, Building 1, Seattle, WA 98115; (562) 980-4036;

Rachael.Wadsworth@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service West Coast Region Sustainable Fisheries Division (SFD) implemented both international and domestic regulations to require Vessel Monitoring Systems and pre-trip notifications on U.S. vessels fishing in the eastern Pacific Ocean (EPO). Further details on these regulations, authorizing laws, and proposed changes are described below.

International regulations: Collection of this information is necessary for the U.S. to satisfy its international obligations under the Convention for the Strengthening of the *Inter-American Tropical Tuna Commission* (IATTC), established by the 1949 Convention between the United States of America and the Republic of Costa Rica (Antigua Convention). As a Party to the Antigua Convention and a member of the IATTC, the United States is legally bound to implement decisions of the IATTC under the Tuna Conventions Act, as amended. At its 87th meeting in July 2014, the IATTC adopted Resolution C-14-02 (*Establishment of a Vessel Monitoring System*). Following this meeting, the National Marine Fisheries Service (NMFS) published a rule to implement VMS requirements and to require that commercial fishing vessels 24 meters or more in overall length and engaging in fishing activities for tuna or tuna-like species in the Convention Area (80 FR 60533). The international regulations are found at 50 CFR 300 Subpart C. There are no proposed changes to these regulations.

Domestic regulations: The *Magnuson-Stevens Fishery Conservation and Management Act* (MSA) established regional fishery management councils, including the Pacific Fishery Management Council (Pacific Council), to develop fishery management plans for fisheries in the U.S. exclusive economic zone (EEZ). These plans, if approved by the Secretary of Commerce, are implemented by Federal regulations, which are enforced by the National Oceanic and Atmospheric Administration's (NOAA's) NMFS and the U.S. Coast Guard (USCG) with the cooperation of state agencies to the extent possible. The Pacific Council submitted the Fishery Management Plan for U.S. West Coast Fisheries for Highly Migratory Species (HMS FMP) for approval by the Secretary of Commerce. On February 4, 2004, the Secretary partially approved the HMS FMP. On April 7, 2004, NMFS published a final rule to implement the approved portions of the HMS FMP (69 FR 18444) including VMS and pre-trip call-in notifications for longline vessel owners and operators; this element became effective on February 10, 2005. On July 9, 2015, NMFS published a final rule to require the use of a NMFS-approved VMS and to institute a 48-hour pre-trip call-in notification requirement for drift gillnet (DGN) vessel owners/operators (80 FR 32465). The domestic regulations are found at 50 CFR 660 Subpart K. There are no proposed changes to these regulations.

The reports included in the regulations are further detailed below.

VMS vessel location reports: The VMS is an automated, satellite-based system that assists the NMFS Office of Law Enforcement (OLE) and the USCG in reliable and cost-effective monitoring of compliance with closed areas and pre-trip reporting requirements, such as those imposed for the purposes of placing observers on vessels. VMS vessel location reports are used to facilitate enforcement regarding commercial fishing vessel compliance with prohibited or restricted fishing areas in the EPO. The reports provide OLE and the USCG real-time vessel location and activity information. The VMS reports also can be used to check the accuracy of vessel position information reported by the vessel operator in the daily fishing logbooks required by the regulations.

Installation/activation reports are used to provide OLE with information about hardware installed and the communication service provider that will be used by the vessel operator. Specific information that links a permitted vessel with a certain
