DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 14862-001]

Douglas Leen; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for exemption from licensing for the Kupreanof Microhydro Project, to be located on an unnamed stream in Petersburg Borough, Alaska, and has prepared an Environmental Assessment (EA). The project would occupy 0.651 acre of federal land in the Tongass National Forest, managed by the U.S. Department of Agriculture's Forest Service.

In the EA, Commission staff analyzes the potential environmental effects of the project and concludes that issuing an exemption for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The Commission provides all interested persons an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. At this time, the Commission has suspended access to Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020.
