

Subsequent E.O.s continued to require the preferred purchasing of recycled content products, as required by statutory mandates. Between 1995 and 2007, EPA issued five CPGs designating 61 items in eight distinct product categories. With each group of proposed items, EPA also published recommendations on purchasing designated items in RMANs. The recommendations published in the RMANs were developed based on information on commercially available items with recovered materials and their associated specifications.

The process established in E.O. 12873 that provides for publication of an RMAN in the FR for public comment without its being codified in the Code of Federal Regulations, fulfills the statutory intent and requirements of RCRA Section 6002. Procuring agencies can obtain information on the availability and sourcing of designated items for use in developing procurement programs to meet their obligations under the statute. Furthermore, because the established process is more flexible than a rulemaking process, RMAN can be issued more expeditiously as well as revised easily to reflect development of new technologies and/or changes in commercial availability of items.

II. Request for Comment

Today, EPA requests comments on the existing five CPGs and the five corresponding RMANs. These five CPGs and RMANs pertain to 61 items in the following eight product categories:

- Paper and Paper Products;
- Vehicular Products;
- Construction Products;
- Transportation Products;
- Park and Recreation Products;
- Landscaping Products;
- Non-paper Office Products; and,
- Miscellaneous Products.

A. Topic Areas

EPA is seeking comment, relating to the following topics:

Topic 1: Designated Items

- Based on procuring agencies purchases, are the right items designated?
- Do the items currently designated represent items that procuring agencies purchase?
- Should items be deleted, added or modified? Why?

Topic 2: Recommendations for the Designated Items Including Recovered Material Content and Specifications

- Are the recommended recovered content levels/ranges appropriate?
 - If not, please provide appropriate levels.
 - Are the specifications published in RMANs appropriate?

- If not, please provide appropriate specifications.

Commenters should provide ample justification and background information for their comments in order to ensure appropriate consideration of the commenter's recommendations.

B. Where To Find Documents

The individual FR notices that were published to designate the CPG items and provide RMAN recommendations, as well as the supporting technical information, can be accessed from the table entitled **Federal Register** Notices Related to the Guidelines for Procurement of Products Containing Recovered Materials, at <https://www.epa.gov/smm/regulatory-background-comprehensive-procurement-guideline-program-cpg>. Existing notices are also available under Docket Details for this Docket, ID No. EPA-HQ-OLEM-2019-0589, at <https://www.regulations.gov>.

III. Public Participation

Submit your comments, identified by Docket ID No. EPA-HQ-OLEM-2019-0589, at <https://www.regulations.gov> (our preferred method), or the other methods identified in the **ADDRESSES** section. Once submitted, comments cannot be edited or removed from the docket. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. For example, commenters should provide ample justification and background information for their comments to ensure appropriate consideration of the commenter's views.

IV. Follow-Up Actions

The EPA plans to review all comments received and determine next steps. Any future revisions to the CPG or RMANs will be noticed in the

Federal Register. Action with respect to a CPG will be made through the notice-and-comment rulemaking. EPA will also make every attempt to alert the public when an action is forthcoming via multiple official social media platforms.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0400; FRS 16624]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before June 8, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0400.

Title: Part 61, Tariff Review Plan

(TRP).

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and

Responses: 2,749 respondents; 4,152 responses.

Estimated Time per Response: 0.5-53 hours.

Frequency of Response: One-time, on occasion, biennially, and annual reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection (IC) is contained in section 47 U.S.C. 10(a) of the Communications Act of 1934, as amended.

Total Annual Burden: 60,722.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Respondents are not being asked to submit confidential information to the Commission. If the Commission requests respondents to submit information which respondents believe are confidential, respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission has developed standardized Tariff Review Plans (TRPs) that set forth the summary material that incumbent LECs (ILECs) file to support revisions to the rates in their interstate access service tariffs. The TRPs display basic data on rate

development in a consistent manner, thereby facilitating review of the ILEC rate revisions by the Commission and interested parties. The TRPs have served this purpose effectively in past years.

Federal Communications Commission.
