

requirement for training providers to submit training certification information to the TPR for each individual driver-trainee that completes training. The compliance date for the "Training Provider Registration" information collection activities was proposed to have remained February 7, 2020. Under the February 4, 2020, interim final rule, FMCSA is now delaying the entire ELDT final rule, as opposed to a partial delay as originally proposed, due to delays in implementation of the TPR that were not foreseen when the proposed rule was published.

Under this revision, the existing entry-level driver training requirements and information collection activities under 49 CFR 380 Subpart E that will continue to be in force for the first two years, 2020 and 2021, of the three-year period covered by this ICR are treated as a separate information collection (IC), IC-1. The "Training Provider Registration" information collection activities, and the "Driver Training Certification Information" information collection activities, that go into effect as of February 7, 2022, under the new ELDT requirements are also treated as separate information collections, IC-2 and IC-3, respectively.

On July 3, 2019, FMCSA published a notice in the **Federal Register** allowing for a 60-day comment period on this ICR. The Agency received one comment to that notice. The Commercial Vehicle Training Association (CVTA) stated their support for OMB to approve the new collections under what are now IC-2 (Training Provider Registration) and IC-3 (Driver Training Certification Information). CVTA also sought clarification as to why there were separate ICs presented in the 60-day notice for the "Training Provider Registration" function and the "Driver Training Certification Information" function. The Agency clarifies that it presented those two activities as separate ICs in order to improve the clarity and transparency of the analysis. Guidance from the Office of Information and Regulatory Affairs (OIRA) at OMB regarding the preparation of ICRs and Supporting Statements recommends that each form or collection instrument have a separate IC within a given ICR, in order to provide a more meaningful and easily understood estimate of the burden associated with each form or collection. OIRA also recommends that agencies present separate ICs within an ICR if the Agency believes that doing so would be informative.

Public Comments Invited

FMCSA requests that you comment on any aspect of this information

collection, including: (1) Whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

The agency will summarize or include your comments in the request for OMB's clearance of this information collection.

Issued under the authority of 49 CFR 1.87.

SUPPLEMENTARY INFORMATION:

I. Public Participation

A. Submitting Comments

If you submit a comment, please include the docket number for this notice (Docket No. FMCSA-2020-0024), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov/docket?D=FMCSA-2020-0024>. Click on the "Comment Now!" button and type your comment into the text box on the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit.

If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope.

FMCSA will consider all comments and material received during the comment period.

B. Viewing Documents and Comments

To view comments, as well as any documents mentioned in this notice as being available in the docket, go to <http://www.regulations.gov/docket?D=FMCSA-2020-0024> and

C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.transportation.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the 5-year period. FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver's medical certification.

The 11 individuals listed in this notice have requested an exemption from the hearing requirement in 49 CFR 391.41(b)(11). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers regarding hearing found in § 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5-1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid, 35 FR 6458, 6463 (April 22, 1970) and 36 FR 12857 (July 3, 1971).

On February 1, 2013, FMCSA announced in a Notice of Final Disposition titled, "Qualification of Drivers; Application for Exemptions; National Association of the Deaf," (78 FR 7479), its decision to grant requests from 40 individuals for exemptions from the Agency's physical qualification standard concerning hearing for interstate CMV drivers. Since that time the Agency has published additional notices granting requests from hard of hearing and deaf individuals for exemptions from the Agency's physical qualification standard concerning hearing for interstate CMV drivers.
