SUPPLEMENTARY INFORMATION: In October 2017, the NRC issued a draft of the guidance document to obtain public input on how to improve the alternative disposal process (ADAMS Package Accession No. ML17229B588). A notice of availability, requesting comment on the draft guidance document, was published in the **Federal Register** (82 FR 48727; October 19, 2017). This **Federal Register** notice provided background information regarding the draft guidance document, solicited public comments, and provided notice of the NRC's plans to hold a public meeting to discuss the document and receive comments on the proposed changes, which occurred on October 19, 2017.

The NRC reviewed and now responds to all the comments from the initial comment period. The NRC staff's resolution of these comments is incorporated into a response document that is included in the supporting documents for this updated revision to the guidance document (ADAMS Package Accession No. ML19295F109). Comments received addressed the following issues: General; Policy/Rulemaking; Agreement State/Regulatory Overlap; Unimportant Quantities of Radioactive Material; Performance Assessment; Compliance Period and Analysis Timeframes; Radon; Other Off-Site Disposals—Release of Solid Material with Volumetric Contamination; Transportation; and Cumulative Impacts.

The NRC staff revised the guidance document in several areas, including the discussions on performance assessment, off-site burial disposals, regulatory requirements, requests for additional information, other off-site disposals, release of solid material with volumetric contamination, non-licensees, and the overall 10 CFR 20.2002 process in response to comments. The purpose of this revision to the guidance is to improve the alternative disposal process by further clarifying the methods and information needed to dispose of waste using an alternate process. This document is a rule as defined in the Congressional Review Act (5 U.S.C. 801-808). However, the Office of

Management and Budget has not found it to be a major rule as defined in the Congressional Review Act. The revision to the guidance is available at ADAMS Package Accession No. ML19295F109 and is available for immediate use by all stakeholders.

SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC is issuing a revision to an existing guide in the NRC's “Regulatory Guide” series. This series was developed to describe and make available to the public information regarding methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the NRC staff uses in evaluating specific issues or postulated events, and data that the NRC staff needs in its review of applications for permits and licenses.

Revision 1 of RG 1.199 was issued for public comment with a temporary identification of Draft Regulatory Guide, DG-1284. The revision addresses changes in the codes and standards endorsed by Revision 0 of the guide. The revised codes and standards endorsed by Revision 1 include: (1) Appendix D, “Anchoring to Concrete,” of American Concrete Institute (ACI) 349-13, “Code Requirements for Nuclear Safety-Related Concrete Structures and Commentary,” (2) ACI 355.2-07, “Qualification of Post-Installed Mechanical Anchors in Concrete and Commentary,” and (3) American Society for Testing and Materials (ASTM) E488/E488M-15, “Standard Test Methods for Strength of Anchors in Concrete Elements.”

II. Additional Information

The NRC published a notice of the availability of DG-1284 in the **Federal Register** on April 22, 2019 (84 FR 16699) for a 60-day public comment period. The public comment period closed on June 21, 2019 and there were no public comments on the guide.

III. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801-808). However, the Office of

Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

IV. Backfitting, Forward Fitting, and Issue Finality

This regulatory guide provides guidance on standards for anchoring components and structural supports in concrete for nuclear power plants licensed under 10 CFR parts 50 and 52. The issuance of this regulatory guide does not constitute backfitting as defined in 10 CFR 50.109, "Backfitting," and as described in NRC Management Directive 8.4, "Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests," or affect issue finality of any approval issued under 10 CFR part 52, "Licenses, Certificates, and Approvals for Nuclear Power Plants," because, as explained in this regulatory guide, licensees are not required to comply with the positions set forth in this regulatory guide.

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3007.301.¹

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern market dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3010, and 39 CFR part 3020, subpart B. For request(s) that the Postal Service states concern competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3015, and 39 CFR part 3020, subpart B. Comment deadline(s) for each request appear in section II.
