SUPPLEMENTARY INFORMATION: The National Defense Authorization Act for Fiscal Year 2008, Public Law 110-181, was enacted on January 28, 2008. Section 1105 of Public Law 110-181 amended the Federal Employees' Compensation Act (FECA) creating a new section, 5 U.S.C. 8102a effective upon enactment. This section establishes a FECA death gratuity benefit of up to \$100,000 for eligible beneficiaries of federal employees and Non-Appropriated Fund Instrumentality (NAFI) employees who die from injuries incurred in connection with service with an Armed Force in a contingency operation. 5 U.S.C. § 8102a also permits agencies to authorize retroactive payment of the death gratuity for employees who died on or after October 7, 2001 in service with an Armed Force in the theater of operations of Operation Enduring Freedom and Operation Iraqi Freedom. 5 U.S.C. 8102a also allows federal employees to vary the order of precedence of beneficiaries or to name alternate beneficiaries 20 CFR 10.909, and 10.911 provides that the CA-40, CA-41, and CA-42 are the forms to be used to designate beneficiaries and initiate the payment process for death gratuity benefits. Form CA-40 is an optional form that requests the information necessary from the employee to accomplish this variance and to name alternate beneficiaries only if the employee wishes to do so. Form CA-41 provides the means for those named beneficiaries and possible recipients to file claims for those benefits and requests information from such claimants so that OWCP may determine their eligibility for payment. Further, the statute and regulations require agencies to notify OWCP immediately upon the death of a covered employee. CA-42 provides the means to accomplish this notification and requests information necessary to

administer any claim for benefits resulting from such a death. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on November 5, 2019 (84 FR 59652).

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with section 51.118 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is making available final Supplement 6, Second Renewal to NUREG-1437, regarding the renewal of Virginia Electric and Power Company; Dominion Energy Virginia (Dominion), operating licenses DPR-32 and DPR-37 for an additional 20 years of operation for Surry Power Station, Unit Nos. 1 and 2 (Surry). A Notice of Availability of Draft Supplement 6, Second Renewal to NUREG-1437 was published in the **Federal Register** on October 25, 2019 (84 FR 57417 and 84 FR 56488), by the Environmental Protection Agency. The public comment period on draft Supplement 6, Second Renewal to NUREG-1437 ended on December 10, 2019, and the comments received are addressed in final Supplement 6, Second Renewal to NUREG-1437.

II. Discussion

As discussed in Chapter 5 of final Supplement 6, Second Renewal to NUREG-1437, the NRC staff determined that the adverse environmental impacts of subsequent license renewal for Surry are not so great that preserving the option of subsequent license renewal for energy-planning decisionmakers would not be unreasonable. This recommendation is based on: (1) The analysis and findings in the GEIS; (2) information provided in the environmental report and other documents submitted by Dominion; (3) consultation with Federal, State, Tribal,
