

of Protected Recourses, Endangered Species Conservation Division.

MBI considered and rejected other gear alternatives to conduct the sampling because the alternative means of sampling the study area are too resource intensive and cost-ineffective compared to the single gear of boat-mounted pulsed direct current (DC) electrofishing. Other possible alternatives would require the direct handling of listed species and thus increase the risk of injury or mortality to the fish. MBI believes that combination of that risk and the comparative inefficiency and ineffectiveness of alternate fish collecting gear types makes boat-mounted pulsed DC electrofishing the safest and most effective sampling method available.

At present, the project is funded by MBI research and development funds, but MBI continues to seek external funding. This project has been ongoing for 18 years and is one of the longest running biological monitoring projects in New England and the only sustained effort that focuses on large river fish assemblages.

National Environmental Policy Act

Issuing an ESA section 10(a)(1)(B) permit constitutes a Federal action requiring NMFS to comply with the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*) as implemented by 40 CFR parts 1500–1508 and NOAA Administrative Order 216–6, Environmental Review Procedures for Implementing the National Policy Act (1999). An initial determination has been made, by NMFS, that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Next Steps

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and comments received during the comment period to determine whether the application meets the requirements of section 10(a) of the ESA. If NMFS determines that the requirements are met, a permit will be issued for incidental takes of ESA-listed shortnose and Atlantic sturgeon and Atlantic salmon. The final NEPA and permit determinations will not be made until after the end of the comment period. NMFS will publish a record of its final action in the **Federal Register**.
