FEDERAL COMMUNICATIONS COMMISSION

[FRS 16684]

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Notice of a modified System of Records.

SUMMARY: The Federal Communications Commission (FCC or Commission or Agency) has modified and renamed an existing system of records, FCC/PSHSB-1, FCC Emergency and Continuity Alerts and Contacts System (ECACS) (formerly: FCC/PSHSB-1, FCC Emergency and Continuity Contacts System (ECCS)), subject to the Privacy Act of 1974, as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the Agency. The FCC’s Public Safety and Homeland Security Bureau (PSHSB) uses the information in ECACS to prepare for and coordinate crisis response activities wherever they occur in the United States and its territories. PSHSB is modifying FCC/PSHSB-1 to include information it will use to evaluate the effectiveness of Wireless Emergency Alerts (WEA), including participating Commercial Mobile Service Providers’ (“providers”) implementation of enhanced geo-targeting for WEA.

DATES: This action will become effective on April 24, 2020. Written comments on the system’s routine uses are due by May 26, 2020. The routine uses in this action will become effective on May 26, 2020 unless written comments are received that require a contrary determination.

ADDRESSES: Send comments to Leslie F. Smith, Privacy Manager, Information Technology (IT), Room 1-C216, Federal Communications Commission, 445 12th Street SW, Washington, DC 20554, or via email at Leslie.Smith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Leslie F. Smith, (202) 418-0217, or Leslie.Smith@fcc.gov (and to obtain a copy of the Narrative Statement and the Supplementary Document, which includes details of the modifications to this system of records).

SUPPLEMENTARY INFORMATION: This notice serves to update and modify FCC/PSHSB-1 to include the Commission’s collection of personally identifiable information (PII) through surveys used to evaluate the effectiveness of WEA, including Participating Commercial Mobile Service (CMS) providers’ implementation of enhanced geo-targeting in support of public safety. As outlined in the Matter of Wireless Emergency Alerts Amendments to Part 11 of the Commission’s Rules Regarding the Emergency Alert System, PS Docket Nos. 15-91 and 15-94, Second Report and Order and Second Order on

Reconsideration, 33 FCC Rcd 1320, 1324–25, para. 6 (2018) (“Second Report and Order”), the Commission’s enhanced geo-targeting rules, effective December 13, 2019, require that the Participating CMS providers match a target area specified by an alert originator (*i.e.*, deliver an alert message to 100% of the geographic area that the alert originator targets with no more than a 0.1 mile overshoot). PSHSB intends to test the effectiveness of this and related functionality to inform PSHSB’s coordination and mitigation work when regions and communities face potentially imminent threats of the loss of life or property. Additionally, the SORN is being modified to make various necessary changes and updates, including the use of more advanced electronic information technologies, *i.e.*, cloud technology, and format changes required by OMB Circular A–108 since its previous publication. The substantive changes and modifications to the previously published version of the FCC/PSHSB–1 system of records include:

1. Changing the name of the system of records to FCC/PSHSB–1, FCC Emergency and Continuity Alerts and Contacts System (ECACS) to show that the system now includes information PSHSB will use to evaluate the effectiveness of Wireless Emergency Alerts (WEA), including participating Commercial Mobile Service (CMS) providers’ implementation of enhanced geo-targeting for WEA.

2. Updating the Security Classification to be consistent with FCC policies and Executive Order 13556.

3. Updating/revising the language in the Categories of Individuals to include individuals representing institutions, organizations, and other groups engaged in crisis management and emergency preparedness functions, activities, and actions as part of the system’s emergency management contacts information; FCC employees and contractors who are members of the Bureau/Office Emergency Response Group (ERG), Devolution Emergency Response Group (DERG) and FCC and bureau and office (B/O) lines of succession; and individuals who volunteer to participate in PSHSB surveys, including surveys to evaluate the effectiveness of WEA and providers’ implementation of enhanced geo-targeting for WEA.

4. Updating/revising the Categories of Records to include the information collected by PSHSB surveys pertaining to the respondents, the locations from which individuals respond to the survey, and other information that PSHSB will collect including, but not

limited to type of device, operating system, and wireless service provider.

5. Updating/revising the Purposes to include coordination of activities such as emergencies and crisis management actions, responses, and related functions; enabling the FCC to manage and maintain the contact and response system for FCC employees and contractors for purposes that include, but are not limited to coordinating Continuity of Operations Plan (COOP) actions and related functions; and conducting voluntary surveys evaluating the effectiveness of WEA, including implementation of enhanced geo-targeting by providers and other related emergency notification systems, functions, and activities.

6. Updating/revising the Records Source Categories to include survey respondents’ inputs transmitted through their wireless devices or through other means of communication.

7. Deleting two routine uses ((1) Emergency Response and (9) First Responders) that are covered by 5 U.S.C. 552a(b)(8) and therefore unnecessary.

8. Updating and/or revising language in eight routine uses: (1) Adjudication and Litigation; (2) Law Enforcement and Investigation; (3) Congressional Inquiries; (4) Government-Wide Program Management and Oversight; (5) Employment, Clearances, Licensing, Contract, Grant or other Benefits Decisions by the FCC; (6) Labor Relations; (7) Breach Notification, updated/revised as required by OMB Memorandum M–17–12; and (10) Contracted Third Parties (previously Routine Use (10)).

9. Adding three new routine uses: (8) Assistance to Federal Agencies and Entities, to allow the FCC to provide assistance to other Federal agencies in their data breach situations, as required by OMB Memorandum M–17–12; (9) Contract Services, Grants, or Cooperative Agreements, to allow contractors performing or working on a contract for the Federal Government access to information in this system; (11) Test Partners, to allow PSHSB’s test partners, which may include state or local government entities, private sector organizations, or volunteers to help plan, conduct, and analyze the test results used to evaluate WEA’s effectiveness and the provider’s implementation of enhanced WEA’s geo-targeting.

10. Adding two new sections: Reporting to a Consumer Reporting Agency, to address valid and overdue debts owed by individuals to the FCC under the Debt Collection Act, as recommended by OMB; and a History section referencing the previous

publication of this SORN in the **Federal Register**, as required by OMB Circular A–108.

11. Updating the Policies and Practices for Retention and Disposal of Records in this system to state that the records in this system are covered by the National Archives and Records Administration’s (NARA) General Records Schedule (GRS) 5.3, Continuity and Emergency Planning Records (January 2017 GRS revision).

The system of records is also updated to reflect various administrative changes related to the system managers and system addresses; policy and practices for storage and retrieval of the information; administrative, technical, and physical safeguards; and updated notification, records access, and procedures to contest records.
