

### Responsible Official

The Responsible Official is Constance Cummins, Forest Supervisor for the SNF.

### Nature of Decision to Be Made

Given the purpose and need, the Responsible Official will review the proposed action, the other alternatives, and the environmental consequences in order to decide the following:

- Whether to approve, approve with modifications, or deny the application for the creation of a SUP and associated expansions.
- Whether to prescribe conditions needed for the protection of the environment on NFS lands.

### Permits or Licenses Required

- Forest Service SUP.
- Minnesota Department of Natural Resources Water Appropriations Permit.
- Minnesota Pollution Control Agency Wastewater Permit.
- Other permits or licenses that may be identified through scoping and the EIS analysis process.

### Scoping Process

This NOI initiates the scoping process, which guides the development of the environmental impact statement. The Forest Service is soliciting comments from Federal, State, and local agencies and other individuals or organizations that may be interested in, or affected by implementation of the proposed projects. Tribal consultation is ongoing, and will continue.

To be most helpful, comments should be specific to the project area and should identify resources or effects that should be considered by the Forest Service. Submitting timely, specifically written comments during this scoping period or any other official comment period establishes standing for filing objections under 36 CFR parts 218 A and B. Additional information and maps of this proposal can be found at: <https://www.fs.usda.gov/project/?project=52440>. Details of the project proposal can also be viewed through an online interactive viewer here: <https://arcg.is/18mzzu>.

It is important that reviewers provide their comments in a timely manner to ensure they are considered in the Agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions. Comments received in response to this solicitation, including names and addresses of those who

comment, will be part of the public record for this proposed action.
