stakeholders that seek to address issues under the Board's jurisdiction that are not otherwise specifically provided for under the Board's other regulatory provisions.

Number of Respondents: Approximately four.

Estimated Time Per Response: 25 hours.

Frequency: On occasion. In calendar years 2017–2019, approximately four petitions of this type were filed with the Board per year.

Total Burden Hours (annually including all respondents): 100 hours (estimated hours per petition $(25) \times \text{total}$ number of petitions (4)).

Total "Non-hour Burden" Cost: \$280 (estimated non-hour burden cost per petition (\$70) × total number of petitions (four)).

Needs and Uses: Under 49 U.S.C. 1321 and 49 CFR part 1117 (the Board's catch-all petition provision), shippers, railroads, and the public in general may seek relief (such as waiver of the Board's regulations) not otherwise specifically provided for under the Board's other regulatory provisions. Under section 1117.1, such petitions should contain three items: (a) A short, plain statement of jurisdiction, (b) a short, plain statement of petitioner's claim, and (c) request for relief. The collection by the Board of these petitions that parties choose to file enables the Board to more fully meet its statutory duty to regulate the rail industry.

Under the PRA, a federal agency that conducts or sponsors a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or provide information to the agency, third parties, or the public. Section 3507(b) of the PRA requires, concurrent with an agency's submitting a collection to OMB for approval, a 30-day notice and comment period through publication in the Federal Register concerning each proposed collection of information, including each proposed extension of an existing collection of information.

Dated: April 22, 2020.

Petition for Exemption

Docket No.: FAA–2019–0775 Petitioner: American Robotics, Inc. Section(s) of 14 CFR Affected: §§ 61.3(a)(1)(i); 91.9(b)(2); 91.119(c); 91.121; 91.151(b); & 91.203(a) & (b).

Description of Relief Sought: The proposed exemption, if granted, would allow the petitioner to operate its proprietary Scout quadcopter unmanned aircraft system (UAS), with a maximum gross takeoff weight of 20 pounds, in rural agricultural settings in accordance with a Special Airworthiness Certificate in the experimental category for the purposes of: Research and development; crew training; and customer crew training. The Scout UAS is a highly-automated industrial vertical takeoff and landing electric multirotor that has been custom designed. Operations under the requested exemption would only be conducted in Class G airspace with areas having light air traffic, in daylight visual meteorological conditions, and would be limited to 400 feet above ground level. Individual missions will occur within the boundaries of controlled access farmland (or similar rural, controlled access environments) owned or controlled by the petitioner's customers.

I. Public Participation and Request for Comments

FMCSA encourages you to participate by submitting comments and related materials.

Submitting Comments

If you submit a comment, please include the docket number for this notice (FMCSA-2019-0215), indicate the specific section of this document to which the comment applies, and provide a reason for suggestions or recommendations. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so the Agency can contact you if it has questions regarding your submission.

To submit your comment online, go to www.regulations.gov and put the docket number, "FMCSA-2019-0215" in the "Keyword" box, and click "Search." When the new screen appears, click on "Comment Now!" button and type your comment into the text box in the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8¹/₂ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, selfaddressed postcard or envelope. FMCSA will consider all comments and material received during the comment period and may grant or not grant this application based on your comments.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31315(b) to grant exemptions from certain Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the Federal Register (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the

information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the Federal Register (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption, and the regulatory provision from which the exemption is granted. The notice must also specify the effective period (up to 5 years) and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Background

Currently, 49 CFR 395.1(e) provides exceptions from the requirement to prepare records of duty status (RODS) for drivers operating in short-haul operations, provided certain conditions are satisfied. Section 395.8(a)(1)(iii)(A)(1) allows motor carriers to require drivers to record drivers' duty status mannually rather than use an ELD, if the drivers are operating commercial motor vehicles "in a manner requiring completion of a record of duty status on not more than 8 days within any 30-day period.' Taken together, drivers operating in short-haul operations are not required to prepare RODS, except for the days when they do not satisfy all the criteria provided in 49 CFR 395.1(e). They may prepare paper RODS for those occasions as long as RODS are not used more than eight days in a 30-day period. For operations where the short-haul drivers fail to satisfy the applicable criteria more than eight days in a 30-day period, the carrier and its drivers would be required to use ELDs.

Right-A-Way is requesting an exemption from the requirement to use ELDs when its drivers do not satisfy all the criteria for the short-haul exception to the RODS requirement, more than eight days in a 30-day period. The exemption would enable the company's short-haul drivers to use paper RODS rather than ELDs for more than eight days in a 30 consecutive day period. A copy of the exemption application is included in the docket referenced at the beginning of this notice.

IV. Request for Comments

In accordance with 49 U.S.C. 31315(b)(6), FMCSA requests public comment from all interested persons on Right-A-Way's application for an exemption. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the "Addresses" section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

[Docket No. FMCSA-2019-0271]

Agency Information Collection Activities; Renewal of an Approved Information Collection: Accident Recordkeeping Requirements

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT. **ACTION:** Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval and invites public comment. FMCSA requests approval to renew the ICR titled "Accident Recordkeeping Requirements." This ICR relates to Agency requirements that motor carriers maintain a record of accidents involving their commercial motor vehicles (CMVs). Motor carriers are not required to report this data to FMCSA, but must produce it upon inquiry by authorized Federal, State or local officials.

DATES: We must receive your comments on or before June 29, 2020.

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Docket Number FMCSA–2019–0271 using any of the following methods:

SUPPLEMENTARY INFORMATION:

Background: Title 49 of the Code of Federal Regulations, Section 390.15(b), requires motor carriers to make certain specified records and information pertaining to CMV accidents available to an authorized representative or special agent of FMCSA upon request or as part of an inquiry. Motor carriers are required to maintain an "accident register" consisting of information concerning all "accidents" involving their CMVs (49 CFR 390.15(b) (see "Definition: Accident" below). The following information must be recorded for each accident: date, location, driver name, number of injuries, number of fatalities, and whether certain dangerous hazardous materials were released. In addition, the motor carrier must maintain copies of all accident reports required by insurers or governmental entities. Motor carriers must maintain this information for three years after the date of the accident. Section 390.15 does not require motor carriers to submit any information or records to FMCSA or any other party.

This ICR supports the DOT strategic goal of safety. By requiring motor carriers to gather and record information concerning CMV accidents, FMCSA is strengthening its ability to assess the safety performance of motor carriers. This information is a valuable resource in Agency initiatives to prevent, and reduce the severity of, CMV crashes.

The Agency has modified several of its estimates for this ICR. The estimated number of annual respondents has decreased substantially, while the numbers of responses, burden hours, and annual costs to respondents have increased. Explanations for these changes are summarized below.

The previously-approved number of annual respondents is 866,122. This estimate was based on records of all interstate and intrastate motor carriers with "recent activity" in the Motor **Carrier Management Information System** (MCMIS) for calendar year 2015. However, not all of these motor carriers experience a DOT-reportable crash every calendar year. To more accurately estimate the annual number of respondents, we looked at the carriers associated with crashes reported in MCMIS for calendar years 2016 through 2018 and calculated the annual average. This gave us a significantly reduced estimate of 89,270 respondents per year.

The previously-approved burden is 36,157 burden hours. The Agency increases its estimate to 55,425 burden hours. The text of section 390.15(b) is unchanged; the increase in burden hours does not reflect changes in the requirements for accident
