SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060–XXXX.

Title: Advanced Methods to Target and Eliminate Unlawful Robocalls, CG Docket No. 17–59.

Form Number: N/A.

Type of Review: New collection.

Respondents: Businesses or other for-profit entities; not-for-profit institutions; Federal Government; State, Local or Tribal Government.

Number of Respondents and Responses: 3,666 respondents; 15,375,326 responses.

Estimated Time per Response: .004 hours (15 seconds) to 32 hours.

Frequency of Response: Monthly, one time, and on occasion reporting requirements; recordkeeping requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in sections 227 and 251(e)(1) of the Telecommunications Act of 1996.

Total Annual Burden: 290,233 hours.

Total Annual Cost: None.

Nature and Extent of Confidentiality: An assurance of confidentiality is not offered because this information collection does not require the collection of personally identifiable information from individuals.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On December 12, 2018, the Commission adopted rules in FCC 18–177, Second Report and Order, published at 84 FR 11226, March 26, 2019, which contain new information collection requirements. Specifically, the Commission concluded that the obligation to provide permanent disconnect information will apply to all reporting carriers as defined in the Commission’s numbering rules, which include wireless, wireline, and interconnected Voice over internet Protocol providers that obtain numbers from the North American Numbering Plan Administrator. As part of the Commission reporting requirements, reporting carriers must provide, among other things, the most recent date each North American Numbering Plan telephone number allocated or ported to the reporting carrier was permanently disconnected. The telephone number and date of permanent disconnection will allow voluntary users of the database to determine whether a number has been permanently disconnected prior to calling that number, thereby protecting against unwanted calls to consumers and potential Telephone Consumer Protection Act liability for callers. Reporting carriers and voluntary users of the reassigned numbers database may also need to provide contact information, including names, address, and telephone number, to enable the database administrator to contact the reporting carrier in case there are any issues with their submission.

The Commission has referred to the North American Numbering Council the development of a technical requirements document for the reassigned numbers database for review by the Commission. The technical requirements document will contain a single, unified set of functional and interface requirements for: Technical interoperability and operational standards; the user interface specifications and data format for service providers to report to the Administrator; the user interfaces and other means by which callers may submit queries, including providing callers the abilities for high-volume and batch processing or to submit individual queries; appropriate safeguards to protect the privacy and security of subscribers, protect the database from unauthorized access, and ensure the security and integrity of the data; and keeping records of service providers’ reporting and accounting.

Federal Communications Commission.

SUPPLEMENTARY INFORMATION:

A. Background

The Federal Home Loan Bank System consists of eleven regional Federal Home Loan Banks (Banks) and the Office of Finance (a joint office that issues and services the Banks' debt securities). The Banks are wholesale financial institutions, organized under authority of the Federal Home Loan Bank Act (Bank Act) to serve the public interest by enhancing the availability of residential housing finance and community lending credit through their member institutions and, to a limited extent, through certain eligible

nonmembers. Each Bank is structured as a regional cooperative that is owned and controlled by member institutions located within its district, which are also its primary customers. An institution that is eligible for membership in a particular Bank must purchase and hold a prescribed minimum amount of the Bank's capital stock in order to become and remain a member of that Bank. With limited exceptions, only an institution that is a member of a Bank may obtain access to low cost secured loans, known as advances, or other products provided by that Bank.

Section 6 of the Bank Act establishes capital requirements for the Banks and requires FHFA to issue regulations prescribing uniform capital standards applicable to all of the Banks.¹ Section 6 also establishes parameters relating to the Banks' capital structures and requires that each Bank adopt a "capital structure plan" (capital plan) to establish, within those statutory parameters, its own capital structure and to establish requirements for, and govern transactions in, the Bank's capital stock.² FHFA's regulations on Bank Capital Requirements, Capital Stock, and Capital Plans are located at 12 CFR part 1277.

B. Need For and Use of the Information Collection

Both the Bank Act and FHFA's regulations state that a Bank's capital plan must require its members to maintain a minimum investment in the Bank's capital stock, but both permit each Bank to determine for itself what that minimum investment is and how each member's required minimum investment is to be calculated.³ Although each Bank's capital plan establishes a slightly different method for calculating the required minimum stock investment for its members, each Bank's method is tied to some degree to both the level of assets held by the member institution (typically referred to as a "membership stock purchase requirement") and the amount of advances or other business engaged in between the member and the Bank (typically referred to as an "activity-based stock purchase requirement").

A Bank must collect information from its members to determine the minimum capital stock investment each member is required to maintain at any point in time. Although the information needed to calculate a member's required

minimum investment and the precise method through which it is collected differ somewhat from Bank to Bank, the Banks typically collect two types of information. First, in order to calculate and monitor compliance with its membership stock purchase requirement, a Bank typically requires each member to provide and/or confirm an annual report on the amount and types of assets held by that institution. Second, each time a Bank engages in a business transaction with a member, the Bank typically confirms with the member the amount of additional Bank capital stock, if any, the member must acquire in order to satisfy the Bank's activity-based stock purchase requirement and the method through which the member will acquire that stock.

The OMB number for the information collection is 2590-0002, which is due to expire on April 30, 2020. The likely respondents include current and former Bank members and institutions applying for Bank membership.

C. Burden Estimate

FHFA has analyzed the time burden imposed on respondents by the two collections under this control number and estimates that the average total annual hour burden imposed on all respondents over the next three years will be 23,135 hours. The estimate for each collection was calculated as follows:

1. Membership Stock Purchase Requirement Submissions

FHFA estimates that the average annual number of current and former members and applicants for membership required to report information needed to calculate a membership stock purchase requirement will be 6,950, and that each institution will submit one report per year, resulting in an estimated total of 6,950 submissions annually. The estimate for the average time required to prepare, review, and submit each report is 0.7 hours. Accordingly, the estimate for the annual hour burden associated with membership stock purchase requirement submissions is (6,950 reports × 0.7 hours per report) = 4,865 hours.

2. Activity-Based Stock Purchase Requirement Submissions

FHFA estimates that the average number of daily transactions between Banks and members that will require the exchange of information to confirm the member's activity-based stock purchase requirement will be 350, and that there will be an average of 261 working days

¹ See 12 U.S.C. 1426(a).

² See 12 U.S.C. 1426(b), (c).

³ See 12 U.S.C. 1426(c)(1); 12 CFR 1277.22, 1277.28(a).

per year, resulting in an estimated 91,350 submissions annually. The estimate for the average preparation time per submission is 0.2 hours. Accordingly, the estimate for the annual hour burden associated with activity-based stock purchase requirement submissions is (91,350 submissions × 0.2 hours per submission) = 18,270 hours.

D. Comment Request

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published an initial notice and request for public comments regarding this information collection in the **Federal Register** on February 19, 2020.⁴ The 60-day comment period closed on April 20, 2020. FHFA received no comments.

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
