**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Draft regulatory issue summary; extension of comment period.

**SUMMARY:** On March 31, 2020, the U.S. Nuclear Regulatory Commission (NRC) solicited comments on a draft regulatory issue summary (RIS) to reinforce the existing requirement that prior to granting or reinstating unescorted access (UA), or certifying unescorted access authorization (UAA) to non-immigrant foreign nationals for the purpose of performing work, licensees shall take reasonable steps to access reliable, independent sources of information, in addition to the information provided by the applicant, to verify the applicant's claimed non-immigration status. The public comment period was originally scheduled to close on April 30, 2020. The NRC has decided to extend the public comment period to allow more time for members of the public to develop and submit their comments.

**DATES:** The due date of comments requested in the document published on March 31, 2020 (85 FR 17770) is extended. Comments should be filed no later than June 15, 2020. ## II. Discussion

On March 31, 2020 (85 FR 17770), the NRC solicited comments on a draft RIS entitled, “Clarification of Personal Access Authorization Requirements for Non-Immigrant Foreign Nationals Working at Nuclear Power Plants.” The purpose of that document was to solicit public comments on the NRC requirement for licensees to ensure that non-immigrant foreign nationals being granted access to work at U.S. nuclear plants have the correct non-immigrant status to do so. The public comment period was originally scheduled to close on April 30, 2020. The NRC has decided to extend the public comment period on the draft RIS until June 15, 2020, to allow more time for members of the public to submit their comments.

Dated: April 23, 2020.
