April 24, 2020.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),<sup>1</sup> and Rule 19b–4 thereunder,<sup>2</sup> notice is hereby given that on April 20, 2020, Cboe Exchange, Inc. *A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change*

**1. Purpose**

The Exchange proposes to add a new version of the Silexx platform (“Cboe Silexx”).<sup>5</sup> By way of background, Silexx is a User-optional order entry and management trading platform. The current versions of the Silexx platform, other than Silexx FLEX, are designed so that a User may enter orders into the platform to send to the executing broker, including Trading Permit Holders (“TPHs”), of its choice with connectivity to the platform. The executing broker can then send orders to Cboe Options (if the broker-dealer is a TPH) or other U.S. exchanges (and trading centers) in accordance with the User's instructions. Users cannot directly route orders through any of the current versions of Silexx, other than Silexx FLEX, to an exchange or trading center nor is the platform integrated into or directly connected to Cboe Option's System. The Exchange recently made available an additional version of the Silexx platform, Silexx FLEX, which supports the trading of FLEX Options and allows authorized Users with direct access to the Exchange.<sup>6</sup>

In addition to supporting the trading of FLEX Options,<sup>7</sup> the proposed new version, Cboe Silexx, will also support the trading of non-FLEX options and allow for direct access to the Exchange. Additionally, functionality that will be available on Cboe Silexx, which was previously adopted by the Exchange and is already available on other versions of Silexx, include real-time data, alerts, trade reports, views of exchange books, management of the customer's orders and positions, simple and complex order tickets, basic risk features, and availability of clearing fields in order tickets.<sup>8</sup> The Exchange notes that Cboe Silexx is essentially the same platform, with the same applicable functionality as Silexx FLEX, except that it additionally supports direct access for non-FLEX trading. As is the case with Silexx FLEX, only authorized Users and associated persons of Users may

<sup>5</sup> The Exchange originally filed this proposed rule change on April 15, 2020 (SR–CBOE–2020–038). On April 20, 2020, the Exchange withdrew that filing and replaced it with this filing.

<sup>7</sup> Only Users authorized for direct access and who are approved to trade FLEX Options may trade FLEX Options via Cboe Silexx.
