SUPPLEMENTARY INFORMATION:

Background

On December 13, 2019, Commerce published the *Preliminary Determination* in this investigation.¹ A summary of the events that occurred since Commerce published the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum, which is hereby adopted by this notice.² A list of the issues raised in this memorandum is attached to this notice as Appendix II.

The Issues and Decision Memorandum is a public document and is available electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed at <http://enforcement.trade.gov/frn/index.html>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Period of Investigation

The POI is April 1, 2018 through March 31, 2019.

Scope of the Investigation

The products covered by this investigation are quartz surface products from Turkey. For a full description of the scope of this investigation, see the "Scope of the Investigation" in Appendix I of this notice.

¹ See *Certain Quartz Surface Products from the Republic of Turkey: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Preliminary Negative Determination of Critical Circumstances, Postponement of Final Determination, and Extension of Provisional Measures*, 84 FR 68111 (December 13, 2019) (*Preliminary Determination*) and accompanying Preliminary Decision Memorandum.

² See Memorandum, "Issues and Decision Memorandum for the Final Affirmative Determination in the Antidumping Duty Investigation of Certain Quartz Surface Products from the Republic of Turkey," dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

Scope Comments

On December 4, 2019, we issued a Preliminary Scope Memorandum.³ We received no scope case briefs from interested parties. Therefore, Commerce has made no changes to the scope of this investigation since the *Preliminary Determination*.

Analysis of Comments Received

All issues raised in the case briefs and rebuttal briefs submitted by interested parties in this proceeding are discussed in the Issues and Decision Memorandum. A list of the issues raised by parties and responded to by Commerce in the Issues and Decision Memorandum is attached at Appendix II.

Verification

As provided in section 782(j) of the Tariff Act of 1930, as amended (the Act), Commerce verified the sales and cost data reported by Belenco dis Tikaret A.Ş. (Belenco), and Ermaş Madencilik Turizm Sanayi Ve Ticaret Anonim Şirketi (Ermaş) for use in our final determination. We used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by the respondents.

Changes Since the Preliminary Determination

Based on our analysis of the comments received and our findings at verification, we made certain changes to the margin calculations for Belenco and Ermaş since the *Preliminary Determination*. For a discussion of these changes, see the Issues and Decision Memorandum.

Final Negative Determination of Critical Circumstances

Commerce preliminarily determined that critical circumstances do not exist for mandatory respondents, Belenco, Ermaş, or with respect to all other producers/exporters. No parties submitted comments regarding our negative preliminary critical circumstances determination and the factual basis for the preliminary negative finding remains unchanged for this final determination. Therefore, in accordance with sections 733(e)(1) and 735(a)(3) of the Act and 19 CFR 351.206, Commerce finds that critical circumstances do not exist for Belenco, Ermaş, or all other producers/exporters.
