

be granted conditional access to the SSI at issue in the case.

These procedures also apply to additional categories of individuals seeking access to SSI. They apply to witnesses retained by a party as experts or consultants and court reporters that are required to record or transcribe testimony containing specific SSI and do not have a current security clearance required for access to classified national security information as defined by E.O. 12958 as amended. The procedure is also used by a prospective bidder who is seeking to submit a proposal in response to a request for proposal by TSA so they may request certain SSI to perfect their bid, an individual involved in the performance of non-traditional contractual agreements (for example, bailments) or other transaction agreements, or an individual receiving access to SSI under 49 CFR 1520.15(e) regarding other conditional disclosures.

Applicants seeking access to SSI in federal district court litigation, bidders, and certain other applicants will be required to complete TSA Form 2211 in order to have a security threat assessment completed before they can receive the requested SSI. TSA will use the information collected to conduct the security threat assessment for the purpose of determining whether the provision of such access to the information for the proceeding or other reason presents a risk of harm to the Nation. TSA recently revised the collection of information to allow individuals who are members of TSA PreCheck™ (also known as TSA PreCheck®) Application Program) to provide a known traveler number (KTN) to facilitate the security threat assessment. This assessment includes: (1) A fingerprint-based criminal history records check (CHRC); (2) a name-based check to determine whether the individual poses or is suspected of posing a threat to transportation or national security, including checks against terrorism, immigration, or other databases TSA maintains or uses; and/or (3) implement other procedures and requirements for safeguarding SSI that are satisfactory to TSA including a professional responsibility check (for attorneys and court reporters). Based on the results of the security threat assessment, TSA will make a final determination on whether the individual may be granted access to the SSI.

TSA estimates that the total annual hour burden for this collection will be 275 hours, based on an estimated 256 annual respondents with a one-hour burden per respondent, plus 7 SSI

litigant respondents with a 2.68-hour burden per respondent.

Dated: April 29, 2020. .
