SUPPLEMENTARY INFORMATION: On December 13, 2017, CCMC submitted an application to lease two 160-acre Federal coal lease tracts comprising 320 acres, located in Mercer County, North Dakota. As project co-leads, the BLM and OSMRE developed the issue-based EA, which analyzed and disclosed potential direct, indirect, and cumulative impacts of leasing and subsequent mining of the proposed lease tracts. The tracts are located at the Coyote Creek Mine and contain about 5.23 million tons of in-place Federal coal resources. The tracts underlie private surface and are described as follows:

Fifth Principal Meridian, North Dakota

T. 143 N., R. 89 W.,
Sec. 24, SW1/4;
Sec. 26, SE1/4.

The areas described aggregate 320.00 acres.

Through this notice, the BLM is inviting the public to provide comments regarding the potential environmental impacts related to the proposed action, and to submit comments on the FMV and the MER for the proposed LBA tract. The BLM usually holds a public hearing in the local community where the tracts are located. However, due to the COVID–19 National Emergency and

the uncertainty of Federal, State, and local social distancing guidelines, the BLM and OSRME are holding the public hearing by teleconference to ensure staff and interested community members are able to participate safely. A stenographer will record the presentation and comments received during the teleconference. All public comments, whether written or oral, will receive consideration prior to the BLM's decision regarding the leasing of the Federal coal contained in the tracts.

Public comments on the EA should address the potential environmental impacts of the proposed action. Public comments on the FMV and MER for the proposed lease tracts may address, but do not necessarily have to be limited to, the following:

1. The quantity and quality of the Federal coal resource;
2. The mining method to be employed to obtain the MER of the coal resource, including the name of the coal bed(s) to be mined, timing and rate of production, restriction of mining, and the inclusion of the lease tracts into the existing mining operation;
3. The price that the mined coal would bring when sold;
4. Costs, including mining and reclamation, and the anticipated timing of production;
5. The percentage rate at which anticipated income streams should be discounted, either with inflation, or in the absence of inflation, in which case the anticipated rate of inflation should be given;
6. Depreciation, depletion, amortization and other tax accounting factors;
7. The value of privately held mineral or surface estate in the Coyote Creek Mine area.

Any proprietary information or data that you submit to the BLM must be marked as confidential to ensure the data will be treated in accordance with the applicable laws and regulations governing the confidentiality of such information or data. A copy of the comments submitted by the public on the EA, FMV, and MER for the tracts, except those portions identified as proprietary and that meet one of the exemptions in the Freedom of Information Act, will be available for public inspection at the BLM, NDFO, 99 23rd Avenue West, Suite A, Dickinson, North Dakota, during regular business hours (8:00 a.m.–4:30 p.m. Central time zone), Monday through Friday.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your

personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, the BLM cannot guarantee that we will be able to do so.
