

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The SEDAR 68 assessment process of Gulf of Mexico and Atlantic Scamp will consist of a series of data and assessment webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 68 Data Plenary Webinar II for Gulf of Mexico and Atlantic Scamp grouper will be held Tuesday, May 26, 2020, from 2 p.m. to 4 p.m.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop, and (2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of

Councils, Commissions, and state and federal agencies.

The items of discussion in the Data Webinars are as follows:

1. An assessment data set and associated documentation will be developed during the webinars.
2. Participants will evaluate proposed data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery dependent and fishery independent measures of stock abundance.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 30, 2020.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF DEFENSE

Department of the Army

[Docket ID USA-2020-HQ-0006]

Proposed Collection; Comment Request

AGENCY: U.S. Army Corps of Engineers (USACE), DoD.

ACTION: Information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the U.S. Army Corps of Engineers announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: Whether the

proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by July 6, 2020.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: DoD cannot receive written comments at this time due to the COVID-19 pandemic. Comments should be sent electronically to the docket listed above.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to U.S. Army Corps of Engineers, Office of Homeland Security, 441 G Street NW, ATTN: Stephanie Bray, Washington, DC 20314-1000, or contact Stephanie Bray, Office of Homeland Security, by email at Stephanie.N.Bray@usace.army.mil or by phone at 202-761-4827.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB

Number: Wetland Determination Automated Data Sheets and Jurisdictional Determination Forms; Eng Form 6116; OMB Control Number 0710-WDAD.

Needs and Uses: In an effort to address regional wetland characteristics and improve the accuracy and efficiency of wetland delineation procedures, the U.S. Army Corps of Engineers Engineer Research and Development Center (ERDC) developed ten regional supplements to the Corps Manual, the most recent of which were issued in

2006. In developing the regional supplements, the Corps recognized that a single national manual is unable to consider regional differences in climate, geology, soils, hydrology, plant, and animal communities, and other factors that are important to the identification and functioning of wetlands. The wetland indicators and guidance provided in the regional supplements are designed to be used in combination with the Corps Manual to identify wetland waters of the United States.

Affected Public: Individual or household.

Annual Burden Hours: 31,049 Hours.

Number of Respondents: 31,049.

Responses per Respondent: 1.

Annual Responses: 31,049.

Average Burden per Response: 1 hour.

Frequency: Annually.

Dated: May 4, 2020.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Silver Jackets Program Nomination and Awards; Nomination Form Eng Form 6128; OMB Control Number 0710-SJAP.

Needs and Uses: The information collection request is necessary to obtain input and feedback into the successes of various Silver Jackets State Teams deserving of recognition through annual awards. The form provides a means of nominating teams for consideration and can be filled out by State government employees. State government employees are also asked to vote for the nominated team most deserving of recognition after the nomination phase is complete.

Affected Public: Individual or household.

Annual Burden Hours: 27 hours.

Number of Respondents: 54.

Responses per Respondent: 2.

Annual Responses: 108.

Average Burden per Response: 30 minutes.

Frequency: Annually.

Call for Nominations is issued annually to request nominations for the Silver Jackets State Team of the Year award. Because the Silver Jackets program is not a USACE-only program, but an intergovernmental partnership program, incorporating input and feedback from our State partners is

critical to recognizing the accomplishments of the teams. There are two information collection requests associated with the Silver Jackets State Team of the Year award. Respondents to both are State government employees who partner with USACE on Silver Jackets State Teams. Silver Jackets is an innovative program that provides States with an opportunity to consistently coordinate with multiple state, federal, and sometimes tribal and local agencies to learn from one another and implement flood risk reduction. The first information collection request is for the nomination of teams for consideration. The second information collection request is to cast votes for the winning team from among those teams that were previously nominated. Eng Form 6128, which will be submitted electronically, is the nomination form. The second information collection request does not have an associated form. In this information collection request, each Silver Jackets State Team is provided with a number of votes that they can cast for one or more of the previously nominated teams, and voting is conducted through a website.

Dated: May 4, 2020.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
