

disaster for the State of Vermont (FEMA-4532-DR), dated April 8, 2020, and related determinations.

DATES: The declaration was issued April 8, 2020.

FOR FURTHER INFORMATION CONTACT:

Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, (202) 646-2833.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated April 8, 2020, the President issued a major disaster declaration under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the "Stafford Act"), as follows:

I have determined that the emergency conditions in the State of Vermont resulting from the Coronavirus Disease 2019 (COVID-19) pandemic beginning on January 20, 2020, and continuing, are of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the "Stafford Act"). Therefore, I declare that such a major disaster exists in the State of Vermont.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide assistance for emergency protective measures (Category B), including direct Federal assistance, under the Public Assistance program throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, W. Russell Webster, of FEMA is appointed to act as the Federal Coordinating Officer for this major disaster.

The following areas of the State of Vermont have been designated as adversely affected by this major disaster:

Emergency protective measures (Category B) not authorized under other Federal statutes, including direct Federal assistance, under the Public Assistance program at 75 percent federal funding for all areas in the State of Vermont.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA);

97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households In Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.

Pete Gaynor,

Administrator, Federal Emergency Management Agency.

Hart Mountain National Antelope Refuge, Lake County, OR; Notice of Intent To Prepare a Bighorn Sheep Management Plan and Environmental Impact Statement

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), intend to

prepare a management plan (plan) for bighorn sheep (*Ovis canadensis*) for Hart Mountain National Antelope Refuge (refuge). We will also prepare an environmental impact statement to develop alternatives for management actions in the plan and evaluate the environmental effects of those actions. We provide this notice in compliance with the National Environmental Policy Act to advise the public, other Federal and State agencies, and Tribes of our intentions, and to obtain public comments and suggestions on the scope of the issues to consider in the planning process.

DATES: To ensure consideration, written comments must be received or postmarked on or before June 8, 2020.

ADDRESSES: Information concerning the refuge and the bighorn sheep population is available on our website, at https://www.fws.gov/refuge/Hart_Mountain/What_We_Do/Resource_Management/Bighorn_Sheep_Plan.html.

Send your questions or comments by any of the following methods:

- *Email:* Sheldon-Hart@fws.gov. Include "Hart Mountain Bighorn Sheep Plan" in the subject line of the message.
- *U.S. Mail:* Project Leader, Sheldon-Hart Mountain National Wildlife Refuge Complex, P.O. Box 111, Lakeview, OR 97630.

FOR FURTHER INFORMATION CONTACT: Danielle Fujii-Doe, Refuge Manager, by email at Sheldon-Hart@fws.gov or by phone at 541-947-2731. Individuals who are hearing or speech impaired may call the Federal Relay Service at 1-800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION:

Introduction

We, the U.S. Fish and Wildlife Service (Service), intend to prepare a management plan (plan) for bighorn sheep (*Ovis canadensis*) for Hart Mountain National Antelope Refuge (refuge). We will also prepare an environmental impact statement to develop alternatives for management actions in the plan and evaluate the environmental effects of those actions. We provide this notice in compliance with the National Environmental Policy Act (NEPA; 42 U.S.C. 1531 *et seq.*) to advise the public, other Federal and State agencies, and Tribes of our intentions, and to obtain public comments and suggestions on the scope of the issues to consider in the planning process.

Background

Located in a remote area of south central Oregon, Hart Mountain National Antelope Refuge, managed by the

Service, encompasses 278,000 acres of sagebrush-steppe habitat within the Great Basin and includes the 19,267-acre proposed Poker Jim Wilderness Area. Originally established in 1936 for the conservation and protection of the once-imperiled pronghorn (*Antilocapra americana*), the refuge also conserves habitat for many native, rare, and imperiled species of fish, wildlife, and plants that depend upon the sagebrush-steppe ecosystem.

Bighorn sheep are an iconic species native to Oregon and the refuge. Originally extirpated in Oregon by 1912, sheep were successfully reintroduced to the State in 1954, when 20 sheep were translocated to Hart Mountain. Since that time, refuge and Oregon Department of Fish and Wildlife (ODFW) staff have conducted annual surveys to track population variables, including number of sheep, lamb production and recruitment, and ram size/age class. The number of sheep counted on the refuge increased yearly from 1954, reaching a high of 350 to 415 sheep during the period 1982–1992. However, beginning in the 1990s, the number steadily declined to approximately 150 animals, and then remained relatively stable during the period 2009–2017. The last three annual surveys represent the most significant declines in population variables to date. The number of sheep counted dropped from 149 in 2017, to 100 in 2018, to 68 in 2019. Lamb production declined by approximately half from 54.4 lambs per 100 ewes in 2017, to 21.5 and 22.7 in 2018 and 2019, respectively. In addition, recruitment reached a low level in 2019, with no 1-year-old class I rams and only two oldest age class IV rams seen.

Sheep habitat encompasses approximately 34,000 acres on the western escarpment of the refuge (Hart Mountain and Poker Jim Ridge), including the proposed Poker Jim Wilderness Area. However, ecological trends over the last several decades, such as juniper encroachment and the spread of invasive herbaceous plants, may be resulting in the decline in the quality of sheep habitat.

In January 2019, ODFW, in cooperation with refuge staff, captured 21 sheep on the refuge. Nineteen were fitted with GPS collars to monitor movements and track adult survival. In addition, health-screening samples were obtained on all 21 sheep. The ODFW Wildlife Health and Population Laboratory analyzed the health screening samples and submitted tonsillar swabs and blood serum for diagnostic tests to both Oregon State University and Washington Animal
