SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Notice of Arrival of Pesticides and Devices under section 17(c) of FIFRA.

ICR number: EPA ICR No. 0152.13.
OMB control number: OMB Control No. 2070-0020.

ICR status: This ICR is currently scheduled to expire on December 31, 2020. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The U.S. Customs and Border Protection (Customs) regulations at 19 CFR 12.112 require that an importer desiring to import a pesticide or device into the United States shall, prior to the shipment's arrival in the United States, submit a Notice of Arrival (NOA) of Pesticides and Devices (EPA Form 3540-1 or its Customs-authorized electronic equivalent) to EPA. Once EPA receives the NOA, EPA will determine the disposition of the shipment upon its arrival in the United States. Upon completing its review, the EPA response is sent to the importer of record or licensed customs broker, who must present the NOA to Customs upon arrival of the shipment at the port of entry. This is necessary to ensure that EPA is notified of the arrival of pesticides and pesticidal devices as required under FIFRA section 17(c), and that EPA has the ability to examine such

shipments to determine compliance with FIFRA. Customs compares entry documents for the shipment with the NOA and notifies the EPA regional office of any discrepancies. Alternatively, importers may submit NOA information electronically through Customs' Automated Commercial Environment (ACE). Most of the electronic filings are automatically processed, and an early indication is provided to the filer if the initial reporting requirements have been met and if the shipment can be released upon arrival at the port of entry. For those filings that do not meet the reporting requirements, automatic checks will be performed to notify the filer of errors. For filings that require non-automated checks, EPA staff can review and provide feedback notifications through ACE to the filer on what information is needed that has not been provided.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 40,880 (per year) hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are pesticide importers, which includes many types of business entities ranging from Commercial and Institutional Building Construction (NAICS 236220) to Pesticide and Other Agricultural Chemical Manufacturing (NAICS 325300) and even Public Administration: Executive Offices (NAICS 921110). Other business and institutions that import pesticides include Agriculture, Forestry, Fishing and Hunting (Sector 11), Wholesale Trade, (Sector 42).

Estimated total number of potential respondents: 92,100.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: One per application.

Estimated total annual burden hours: 40,880 hours.

Estimated total annual costs: \$2,753,522. There is no capital or operation & maintenance costs.

III. Are there changes in the estimates from the last approval?

There is an increase of 24,540 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB.

This increase reflects an increase in the annual number of NOAs submitted. The new electronic system for submitting NOA filings, ACE, has contributed to the increase in the number of NOAs. The annual number of NOAs submitted to EPA increased from 38,000 for the previous ICR renewal to 92,100 for this ICR renewal. The average burden hours per response increased slightly from the previous ICR renewal of 0.43 hours to the current 0.44 per response. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: April 28, 2020.

ACTION: Notice.

SUMMARY: The U.S. Equal Employment Opportunity Commission (EEOC) announces a delay in the anticipated opening of the 2019 EEO-1 Component 1 data collection and the 2020 EEO-3 and EEO-5 data collections due to the Coronavirus Disease 2019 (COVID-19) public health emergency.
