Title of Collection: Impact Study of Federally-Funded Magnet Schools.

OMB Control Number: 1850-0943.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 706.

Total Estimated Number of Annual Burden Hours: 629.

Abstract: The Office of Management and Budget (OMB) package requests clearance for data collection activities to support a rigorous Impact Study of Federally-Funded Magnet Schools. The Institute of Education Sciences (IES) at the U.S. Department of Education (ED) has contracted with Mathematica Policy Research and its subcontractor, Social Policy Research Associates (SPR), to conduct this evaluation (ED-IES-17-C-0066). The evaluation included an initial feasibility assessment and determined that a rigorous impact study can be conducted.

The impact study would collect survey data from principals and district administrative records on admissions lotteries and student progress. The study would use these data to estimate the impacts of magnet schools on student achievement and diversity and to describe whether particular features of magnet schools are associated with greater success. The study would also collect survey data from charter schools on their admissions practices to provide context for the impact study findings.
