

2. *The Title of the Form/Collection:* National Inmate Survey in Prisons (NIS-4P).

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* There is no agency form number at this time. The applicable component within the Department of Justice is the Bureau of Justice Statistics, in the Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will primarily be State, Local, or Tribal Government entities. The work under this clearance will be used to produce estimates for the incidence and prevalence of sexual victimization within correctional facilities as required under the Prison Rape Elimination Act of 2003 (Pub. L. 108-79). The Bureau of Justice Statistics uses this information in published reports and for the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, and others interested in criminal justice statistics.

In 2003, the Prison Rape Elimination Act (PREA or the Act) was signed into law. The Act requires BJS to “carry out, for each calendar year, a comprehensive statistical review and analysis of the incidence and effects of prison rape.” The Act further instructs BJS to collect survey data: “. . . the Bureau shall . . . use surveys and other statistical studies of current and former inmates . . .”

To implement the Act, BJS developed the National Prison Rape Statistics Program (NPRS), which includes four separate data collection efforts: The Survey on Sexual Violence (SSV), the National Inmate Survey (NIS), the National Survey of Youth in Custody (NSYC), and the National Former Prisoner Survey (NFPS). The NIS collects information on sexual victimization self-reported by inmates held in adult correctional facilities, both prisons and jails. The NIS has been conducted three times, in 2007 (NIS-1), in 2008-09 (NIS-2), and in 2011-12 (NIS-3). Each iteration of NIS was conducted in at least one facility in all 50 states and the District of Columbia. In each iteration of the survey, inmates completed the survey using an audio computer-assisted self-interview (ACASI), whereby they heard questions and instructions via headphones and responded to the survey items via a touch-screen interface.

The collection requested in this notice is the fourth iteration of the National Inmate Survey. For NIS-4, administration of the survey in prisons will take place separately from survey administration in jails. This collection

request is specific to conducting the survey in adult prison facilities.

The survey instrument for the NIS-4 in Prisons is slightly modified from the previous iterations. The main difference is the addition of a new set of incident-specific questions administered to respondents who affirmatively indicate they were sexually victimized at some point in the previous 12 months while housed in their current prison facility. These incident-specific questions will provide information to the public on the nature of sexual victimization in prisons, such as where incidents occurred within the facility, the relationship between the victim and the alleged perpetrator(s), and whether the victim suffered any injuries as a result of the incident, among other incident characteristics.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Prior to data collection commencing in 2021, BJS will coordinate the logistics of NIS-4 survey administration with staff at state, local, and tribal correction facilities. Because the administration of this survey in jails is not included in this request, the overall number of burden hours is lower than in the last request approved in 2010. It is estimated that 246 facility respondents will devote 150 minutes of time to this coordination effort. During data collection in 2021, an estimated 77,699 state, local, and tribal adult inmates held in prisons will be interviewed, with the average interview lasting an estimated 35 minutes.

6. *An estimate of the total public burden (in hours) associated with the collection:* This collection was previously approved for implementation in both adult prisons and jails. The current request will only be implemented in adult prisons, thereby reducing the total number of facility staff and respondents required to participate. The total estimated NIS-4 in Prisons public burden, inclusive of facility staff and respondent burden estimates and assuming a 100% response rate, is 78,810 hours. This comprises 19,906 hours of facility staff burden (coordinating the administration, completing the facility questionnaire, and escorting inmates to and from the interviews) and 58,904 hours of respondent interviewing burden. The third iteration of NIS had around a 65% response rate, so the true burden will likely be much lower.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and

Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: May 6, 2020.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-18-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2010-0056]

OSHA-7 Form (“Notice of Alleged Safety and Health Hazard”); Extension of the Office of Management and Budget’s (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning the proposal to extend the Office of Management and Budget’s (OMB) approval of the information collection requirements contained in the OSHA-7 Form.

DATES: Comments must be submitted (postmarked, sent, or received) by July 10, 2020.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Facsimile: If your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at (202) 693-1648.

Mail, hand delivery, express mail, messenger, or courier service: When using this method, you must submit a copy of your comments and attachments to the OSHA Docket Office, Docket No. OSHA-2010-0056, Occupational Safety and Health Administration, U.S. Department of Labor, Room N-3653, 200 Constitution Avenue NW, Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the OSHA Docket Office’s normal business hours, 10:00 a.m. to 3:00 p.m., ET.

Instructions: All submissions must include the agency name and the OSHA docket number (OSHA-2010-0056) for the Information Collection Request (ICR). All comments, including any

personal information you provide, such as social security numbers and dates of birth, are placed in the public docket without change, and may be made available online at <http://www.regulations.gov>. For further information on submitting comments, see the "Public Participation" heading in the section of this notice titled **SUPPLEMENTARY INFORMATION.**

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the above address. All documents in the docket (including this **Federal Register** notice) are listed in the <http://www.regulations.gov> index; however, some information (*e.g.*, copyrighted material) is not publicly available to read or download through the website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. You may also contact Theda Kenney at (202) 693-2222 to obtain a copy of the ICR.

FOR FURTHER INFORMATION CONTACT:
Laura Seeman, Directorate of Enforcement Programs, OSHA, U.S. Department of Labor, telephone (202) 693-2100.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of a continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance process to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining said information (29 U.S.C. 657).

Under paragraphs (a) and (c) of 29 CFR 1903.11 ("Complaints by employees"), employees and their representatives may notify the OSHA area director or an OSHA compliance officer of safety and health hazards regulated by the agency that they believe exist in their workplaces at any time. These provisions state further that this notification must be in writing and "shall set forth with reasonable particularity the grounds for the notice, and shall be signed by the employee or representative of the employee."

In addition to providing specific hazard information to the agency, paragraph (a) permits employees/employee representatives to request an inspection of the workplace. Paragraph (c) also addresses situations in which employees/employee representatives may provide the information directly to the OSHA compliance officer during an inspection. An employer's former employees may also submit complaints to the agency.

To address the requirements of paragraphs (a), especially the requirement that the information be in writing, the agency developed the OSHA-7 Form ("Notice of Alleged Safety and Health Hazard"); this form standardized and simplified the hazard reporting process. For paragraph (a), they may complete an OSHA-7 Form obtained from the agency's website and then send it to OSHA online, or deliver a hardcopy of the form to the OSHA area office by mail or facsimile, or by hand. They may also write a letter containing the information and hand deliver it to the area office, or send it by mail or facsimile. In addition, they may provide the information orally to the OSHA area office or another party (*e.g.*, a federal safety and health committee for federal employees), in which case the area office or other party completes the hard copy version of the form. For the typical situation addressed by paragraph (c), an employee/employee representative informs an OSHA compliance officer orally of the alleged hazard during an inspection, and the compliance officer then incorporates that information into the walk around inspection.

The information on the hard copy version of the OSHA-7 Form includes information about the employer and alleged hazards, including: The establishment's name; the site's address and telephone and facsimile numbers; the name and telephone number of the management official; the type of business; a description and the specific location of the hazards, including the approximate number of employees exposed or threatened by the hazards;

and whether or not the employee/employee representative informed another government agency about the hazards (and the name of the agency if so informed).

Additional information on the hard copy version of the form concerns the complainant, including: Whether or not the complainant is an employee or an employee representative, or a member of a federal safety and health committee or another party (with space to specify the party); the complainant's name, telephone number, and address; and the complainant's signature attesting that they believe a violation of an OSHA standard exists at the named establishment; and the date of the signature. An employee representative must also provide the name of the organization they represent and their title.

The information contained in the online version of the OSHA-7 Form is similar to the hard copy version. However, the online version requests the complainant's email address (the hard copy currently does not), and does not ask for the site's facsimile number or the complainant's signature and signature date.

The agency uses the information collected on the OSHA-7 Form to determine whether reasonable grounds exist to conduct an inspection of the workplace. The description of the hazards, including the number of exposed employees, allows the agency to assess the severity of the hazards and the need to expedite the inspection. The completed form also provides the employer with notice of the complaint and may serve as the basis for obtaining a search warrant if the employer denies the agency access to the workplace.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employees who must comply—for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements relating to the OSHA-7 Form. The agency is requesting an adjustment decrease of 75 burden hours (from 19,258 to 19,183 burden hours). The difference is the result of an overall decrease in estimated complaints received annually from 70,976 complaints to 68,896.

The agency also requests an adjustment decrease in operation and maintenance costs of \$365 (from \$701 to \$336). The decrease occurred due to a decrease in the estimated OSHA-7 forms being mailed from 1,430 to 610 forms.

In addition, the ICR proposes several non-substantive editorial revisions to the hardcopy and electronic versions of the OSHA-7 Form to clarify instructions and modernize information sharing. The minor edits are also requested in response to feedback from field management, as well as to ensure consistency with current agency policies and procedures.

The first change, to the "Instruction" field box, would add the word "health" to the sentence, "If there is any particular evidence that supports your suspicion that a hazard exists (for instance, a recent accident or physical/health symptoms of employees at your site) include the information in your description." In addition, the agency would add to the "Hazard Description/Location" field box, which states, "Describe briefly the hazard(s) which you believe exist," the new phrase, "and on what date you last observed the hazard(s)." The agency also proposes to include the addition of an email address with which to contact the agency. The hardcopy form would also be revised to provide the complainant an opportunity to provide their email address to the agency, as the electronic form currently provides. Other nonsubstantive editorial changes to the forms are also proposed.

A mark-up of the proposed changes to the English-language versions of the form will be available in the ICR docket for public comment. Changes made to the Spanish-language versions of the form will be identical to the English-language versions of the form. The agency does not believe that the proposed revisions to the complaint form will further impact the adjusted burden hours. The agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Revision of a currently approved collection.

Title: Notice of Alleged Safety and Health Hazards (Form OSHA-7).

OMB Control Number: 1218-0064.

Affected Public: Individuals.

Number of Respondents: 68,896.

Frequency: On occasion.

Average Time per Response: Varies.

Estimated Number of Responses: 68,896.

Estimated Total Burden Hours: 19,183.

Estimated Cost (Operation and Maintenance): \$336.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

(1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the agency name and the OSHA docket number (Docket No. OSHA-2010-0056) for the ICR. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify electronic comments by your name, date, and the docket number so that the agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350; TTY (877) 889-5627.

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips"

link. Contact the OSHA Docket Office for information about materials not available through the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

Loren Sweatt, Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 1-2012 (77 FR 3912).

Signed at Washington, DC, on May 5, 2020.

Loren Sweatt,

Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2018-0013]

Salini-Impregilo/Healy Joint Venture: Grant of Permanent Variance

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice of permanent variance.

SUMMARY: In this notice, OSHA grants a permanent variance to Salini-Impregilo/Healy Joint Venture from the provisions of OSHA standards that regulate work in compressed-air environments.

DATES: The permanent variance specified by this notice becomes effective on May 11, 2020 and shall remain in effect until the completion of the Northeast Boundary Tunnel project.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, phone: (202) 693-1999; email: meilinger.francis2@dol.gov.

General and Technical Information: Contact Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor; phone: (202) 693-2110 or email: robinson.kevin@dol.gov.
