ACTION: Exemptions; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) issued seven exemptions in response to requests from Energy Harbor Nuclear Corp.; Exelon Generation Company, LLC; NextEra Energy Seabrook, LLC; and Arizona Public Service Company. The exemptions allow the licensees to deviate from specific work hours requirements of the NRC’s “Fitness for Duty Programs” regulation and use site-specific fatigue management controls, in response to the COVID-19 public health emergency (PHE). The NRC is issuing a single notice to announce the issuance of these exemptions.

DATES: The seven exemptions were issued between April 3, 2020, and April 20, 2020.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC issued seven exemptions in response to requests dated between April 2, 2020, and April 18, 2020, from Energy Harbor Nuclear Corp.; Exelon Generation Company, LLC; NextEra Energy Seabrook, LLC; and Arizona Public Service Company. The exemptions allow the licensees to deviate from specific requirements (cited below) of Title 10 of the *Code of*

Federal Regulations (10 CFR) Part 26, “Fitness for Duty Programs,” Section 26.205, “Work hours.”

The exemptions from 10 CFR 26.205(d)(1) through (7) ensure that the control of work hours and management of worker fatigue do not unduly limit licensee flexibility in using personnel resources to most effectively manage the impacts of the COVID-19 PHE on maintaining the safe operation of these facilities. Specifically, the licensees stated that their staffing levels are affected or are expected to be affected by the COVID-19 PHE, and they can no longer meet or likely will not meet the work hour controls of 10 CFR 26.205(d)(1) through (d)(7). The licensees have committed to effecting site-specific administrative controls for COVID-19 PHE fatigue-management for personnel specified in 10 CFR 26.4(a).

The NRC is periodically providing this compiled listing of related exemptions using a single **Federal Register** notice for COVID-19 related exemptions, instead of issuing individual **Federal Register** notices. The compiled listing provides transparency regarding the number of exemptions the NRC is issuing related to a given regulatory requirement. Additionally, the NRC publishes a list of approved licensing actions related to the COVID-19 PHE on its public website at <https://www.nrc.gov/about-nrc/covid-19/reactors/licensing-actions.html>.

II. Availability of Documents.

The table below provides the plant name, docket number, and ADAMS accession number for each exemption issued. Additional details on each exemption issued, including the exemption request submitted by the respective licensee, are provided in each exemption approval listed below.
