SUPPLEMENTARY INFORMATION: Notice of the meeting(s) is provided as required

by Sec. 708(e)(3)(B) of the Defense Production Act (DPA), 50 U.S.C. 4558(e)(3)(B), and consistent with 44 CFR part 332.

The DPA authorizes the making of “voluntary agreements and plans of action” with, among others, representatives of industry and business to address conditions that may pose a direct threat to the national defense or its preparedness programs (50 U.S.C. 4558(c)(1)). The President’s authority to facilitate voluntary agreements has been delegated to the Department of Homeland Security (DHS) generally in section 401 of Executive Order 13603,¹ “National Defense Resources Preparedness,” and specifically for response to the spread of COVID-19 within the United States in section 3 of Executive Order 13911.² “Delegating Additional Authority Under the Defense Production Act With Respect to Health and Medical Resources To Respond to the Spread of COVID-19.” The Secretary of Homeland Security has delegated this authority to the FEMA Administrator in DHS Delegation 09052 Rev. 00.1, “Delegation of Defense Production Act Authority to the Administrator of the Federal Emergency Management Agency” (Apr. 1, 2020).

The FEMA Administrator has found that, in light of the unprecedented nature of COVID-19 and subsequent response requirements, conditions exist which pose a direct threat to the national defense and its preparedness programs. A future pandemic, or resurgence of COVID-19, will similarly threaten the national defense and its preparedness programs. Therefore, FEMA has sought, and received, approval from the Attorney General, after consultation by the Attorney General with the Federal Trade Commission, to begin the consultations with representatives of manufacturers, suppliers and distributors of personal protective equipment, pharmaceuticals, and other critical health and medical resources for the purpose of making a voluntary agreement under the DPA. The purpose of such an agreement is to maximize the effectiveness of the distribution of critical health and medical resources nationwide to respond to pandemics in general, and COVID-19 specifically, by establishing unity of effort between agreement participants and the Federal Government for integrated coordination, planning, information sharing, and distribution of critical medical resources. With respect to agreement participants specifically, the agreement

would establish the terms, conditions, and procedures under which participants agree voluntarily to contribute and facilitate health and medical resource production and distribution capacity as requested by FEMA and other Federal Government entities.

FEMA proposes to make a 5-year voluntary agreement effective as soon as possible to address the Nation’s response to COVID-19. FEMA proposes a Committee for the Distribution of Medical Resources Necessary to Respond to a Pandemic (the “Committee”) to provide FEMA and the participants a forum to maximize the effectiveness of the distribution of health and medical resources nationwide to respond to a pandemic through integrated coordination, planning, information sharing, and distribution of health and medical resources.

The meeting(s) will be chaired by the FEMA Administrator or his delegate, and attended by the Attorney General or his delegate, and the Chairman of the Federal Trade Commission or his delegate. In developing this agreement, FEMA will adhere to all procedural requirements of 50 U.S.C. 4558 and 44 CFR part 332 for establishment of this voluntary agreement.

Meeting Objectives: The purpose of the meeting(s) is two-fold:

(1) First, FEMA aims to identify agreement participants. FEMA proposes to invite representatives of major manufacturers, suppliers, and distributors of health and medical resources critical to respond to a pandemic. FEMA requests stakeholder input on identification of appropriate manufacturers, suppliers, distributors, and any other appropriate stakeholders for inclusion in the voluntary agreement.

(2) Second, FEMA aims to gather technical advice from meeting participants on the scope and substance of the draft agreement. FEMA proposes that voluntary agreement will include: Provision of technical advice; collective sharing of information; identification and validation of places and resources of the greatest need for medical resources; projection of future distribution demands; collective identification and resolution of allocation of scarce resources among all public and private domestic needs; sharing of vendor, manufacturer and distribution information; and inclusion of any other necessary collective actions to maximize the timely national distribution of health and medical resources necessary to respond to a pandemic. FEMA requests stakeholder

evaluation of the objectives outlined above, and requests that stakeholders provide additional recommendations for objectives of the voluntary agreement.
