BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; 2020 Residential Energy Consumption Survey (RECS), Low Income Home Energy Assistance Program (LIHEAP) Administrative Data Matching (OMB #0970–0486)

AGENCY: Office of Community Services, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The Office of Community Services (OCS) is requesting a reinstatement without change for the collection and reporting of administrative household recipient data

from state LIHEAP grantees. OMB approved the original collection under #0970–0486. ACF published a **Federal Register** notice on July 30, 2019 soliciting 60 days of public comment on requiring state grantees to provide household-level recipient data for this effort. ACF received no comments on that notice.

DATES: *Comments due within 30 days of publication.* OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION:

Description: The Low Income Home Energy Assistance Program (LIHEAP) block grant (42 U.S.C. 8621 *et seq.*) was established under Title XXVI of the Omnibus Budget Reconciliation Act of 1981, Public Law 97–35, as amended. The Office of Community Services (OCS), Administration for Children and Families (ACF), within the U.S. Department of Health and Human Services (HHS), administers LIHEAP at the federal level.

The LIHEAP statute requires HHS to report to Congress annually on program impacts on recipient and eligible households. The primary program goals, as articulated in the statute, are to ensure that benefits are targeted to those households where the greatest program impacts are expected, and to assure that timely resources are available to households experiencing home energy crises.

OCS is seeking a reinstatement without change to collect data from all state LIHEAP grantees and the District of Columbia that will allow OCS to identify LIHEAP recipients that respond to the Residential Energy Consumption Survey (RECS), which the U.S. Energy Information Administration (EIA) is planning to conduct in 2020. EIA conducts this survey to provide periodic national and regional data on residential energy use in the United States. OCS uses RECS data to furnish Congress and the Administration with important national and regional descriptive data on the energy needs of low-income
