

Type of Information Collection: Revision of a currently approved information collection.

OMB Number: 1660-0114.

Form Titles and Numbers: FEMA Form 089-5, PSGP Investment Justification.

Abstract: The previous version of FEMA Form 089-5 presented numerous editing and submission challenges for applicants, often leaving required information blank within the form. Additionally, numerous applicants annually fail to provide required content information within a detailed budget worksheet or provide no detailed budget worksheet at all. A detailed budget worksheet is required; however it is not currently in a required template. This update changes the format and software of Form 089-5 and incorporates the detailed budget worksheet to help ensure accurate project accounting. By broadening the form to include all required project information, applicants will have fewer documents to track and submit; and subsequent agency reviews will be streamlined and improve consistency among application format.

Affected Public: State, local and Tribal Governments; businesses or other for-profits and non-profits.

Estimated Number of Respondents: 893.

Estimated Number of Responses: 1,759.

Estimated Total Annual Burden Hours: 17,450 hours.

Estimated Total Annual Respondent Cost: \$1,430,377.

Estimated Respondents' Operation and Maintenance Costs: 0.

Estimated Respondents' Capital and Start-Up Costs: 0.

Estimated Respondents' Operation and Maintenance Costs: 0.

Estimated Respondents' Capital and Start-Up Costs: 0.

Estimated Total Annual Cost to the Federal Government: \$1,055,219.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those

who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, such as permitting electronic submission of responses.

Maile Arthur,

Acting Records Management Branch Chief, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

SUPPLEMENTARY INFORMATION:

Comments

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension, Without Change, of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Standards to Prevent, Detect, and Respond to Sexual Abuse and Assault in Confinement Facilities

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. DHS is setting standards for the prevention, detection, and response to sexual abuse in its confinement facilities. For DHS facilities and as incorporated in DHS contracts, these standards require covered facilities to retain and report to the agency certain specified information relating to sexual abuse prevention planning, responsive planning, education and training, and investigations, as well as to collect, retain, and report to the agency certain specified information relating to allegations of sexual abuse within the covered facility.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 1,386,177 responses at 6 minutes (.1 hours) per response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 120,082 annual burden hours.

Dated: May 8, 2020.

Scott Elmore,

PRA Clearance Officer.

SUPPLEMENTARY INFORMATION: In
accordance with the PRA and its
implementing regulations at 5 CFR
1320.8(d)(1), all information collections
require approval under the PRA. We
may not conduct or sponsor and you are
not required to respond to a collection
of information unless it displays a
currently valid OMB control number.

As part of our continuing effort to
reduce paperwork and respondent

burdens, we invite the public and other
Federal agencies to comment on new,
proposed, revised, and continuing
collections of information. This helps us
assess the impact of our information
collection requirements and minimize
the public's reporting burden. It also
helps the public understand our
information collection requirements and
provide the requested data in the
desired format.

We are especially interested in public
comment addressing the following:

(1) Whether or not the collection of
information is necessary for the proper
performance of the functions of the
agency, including whether or not the
information will have practical utility;

(2) The accuracy of our estimate of the
burden for this collection of
information, including the validity of
the methodology and assumptions used;

(3) Ways to enhance the quality,
utility, and clarity of the information to
be collected; and
(4) How might the agency minimize
the burden of the collection of
information on those who are to
respond, including through the use of
appropriate automated, electronic,
mechanical, or other technological
collection techniques or other forms of
information technology, e.g., permitting
electronic submission of response.

Comments that you submit in
response to this notice are a matter of
public record. We will include or
summarize each comment in our request
to OMB to approve this ICR. Before
including your address, phone number,
email address, or other personal
identifying information in your
comment, you should be aware that
your entire comment—including your
personal identifying information—may
be made publicly available at any time.
While you can ask us in your comment
to withhold your personal identifying
information from public review, we
cannot guarantee that we will be able to
do so.

Abstract: The information collected
for the National Survey of Fishing,
Hunting, and Wildlife-Associated
Recreation (FHWAR) assists the Fish
and Wildlife Service in administering
the Wildlife and Sport Fish Restoration
grant programs. The 2022 FHWAR
survey will provide up-to-date
information on the uses and demands
for wildlife-related recreation resources
and a basis for developing and
evaluating programs and projects to
meet existing and future needs.

We collect the information in
conjunction with carrying out our
responsibilities under the Dingell-
Johnson Sport Fish Restoration Act (16
U.S.C. 777-777m) and the Pittman-

Robertson Wildlife Restoration Act (16
U.S.C. 669-669i). Under these acts, as
amended, we provide approximately \$1
billion in grants annually to States for
projects that support sport fish and
wildlife management and restoration,
including:

- Improvement of fish and wildlife
habitats,
- Fishing and boating access,
- Fish stocking, and
- Hunting and fishing opportunities.

We also provide grants for aquatic
education and hunter education,
maintenance of completed projects, and
research into problems affecting fish
and wildlife resources. These projects
help to ensure that the American people
have adequate opportunities for fish and
wildlife recreation. We conduct the
survey about every 5 years. The 2022
FHWAR survey will be the 14th
conducted since 1955. We sponsor the
survey at the States' request, which is
made through the Association of Fish
and Wildlife Agencies. We contract with
the National Opinion Research Center
(NORC) at the University of Chicago,
which collects the information using
internet, telephone, or mail-in
interviews. Respondents are invited to
take the survey with a mailed letter.
NORC will select a sample of
sportspersons and wildlife watchers
from a household screen and conduct
three detailed interviews during the
survey year. The survey collects
information on the number of days of
participation, species of animals sought,
and expenditures for trips and
equipment. Information on the
characteristics of participants includes
age, income, sex, education, race, and
State of residence.

Federal and State agencies use
information from the survey to make
policy decisions related to fish and
wildlife restoration and management.
Participation patterns and trend
information help identify present and
future needs and demands. Land
management agencies use the data on
expenditures and participation to assess
the value of wildlife-related recreational
uses of natural resources. Wildlife-
related recreation expenditure
information is used to estimate the
impact on the economy and to support
the dedication of tax revenues for fish
and wildlife restoration programs.
