

SUMMARY: The Bureau of Reclamation (Reclamation) intends to prepare a Supplemental Environmental Impact Statement (SEIS) for the B.F. Sisk Dam Raise and Reservoir Expansion Project. Reclamation is requesting public and agency comment to identify significant issues or other alternatives to be addressed in the SEIS.

DATES: Submit written comments on the scope of the SEIS on or before June 15, 2020.

ADDRESSES: Provide written scoping comments, requests to be added to the mailing list, or requests for other special assistance needs to Ms. Casey Arthur, Project Manager, Bureau of Reclamation, Willows Construction Office, 1140 W. Wood Street Willows, CA, 95988.

FOR FURTHER INFORMATION CONTACT: Ms. Casey Arthur, Project Manager, Bureau of Reclamation, Willows Construction Office, 1140 W. Wood Street Willows, CA, 95988.; telephone (530) 892-6202; facsimile (530) 934-7679; email carthur@usbr.gov. Persons who use a telecommunications device for the deaf may call the Federal Relay Service (FedRelay) at 1-800-877-8339 TTY/ASCII to contact the above individual during normal business hours or to leave a message or question after hours. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: Reclamation is issuing this notice pursuant to the National Environmental Policy Act of 1969, as amended (NEPA), 42 U.S.C. 4321 *et seq.*; the Council on Environmental Quality's (CEQ) regulations for implementing NEPA, 43 CFR parts 1500 through 1508; and the Department of the Interior's NEPA regulations, 43 CFR part 46.

Background

B.F. Sisk Dam is an earth-filled gravity embankment dam with a crest height of 382 feet and an overall length of about 3.5 miles, impounding San Luis Reservoir with a capacity of 2,041,000 acre-feet (AF). The dam is located near Santa Nella, California, along Pacheco Pass. Although the dam was constructed and is owned by Reclamation, the California Department of Water Resources (DWR) operates the facilities, and the California Department of Parks and Recreation manages the recreational resources associated with San Luis Reservoir. San Luis Reservoir is an off-stream reservoir within Reclamation's Central Valley Project (CVP) and DWR's State Water Project.

Reclamation's Safety of Dams Office completed a risk analysis of B.F. Sisk Dam that evaluated dam stability in the event of seismic activity that proposed

a structural solution, which included a crest raise. Reclamation and DWR prepared an environmental impact statement (EIS)/environmental impact report (EIR) analyzing the effects from a No Action Alternative, Operational Alternative, and Crest Raise Alternative, and noticed the availability of the Final EIS/EIR to the public via the **Federal Register** on August 23, 2019 (84 FR 44295). In December 2019, Reclamation signed a Record of Decision providing the rationale for choosing the Crest Raise Alternative (https://www.usbr.gov/mp/nepa/nepa_project_details.php?Project_ID=34281). Reclamation is currently designing the Crest Raise Alternative under the B.F. Sisk Safety of Dams (SOD) Modification Project.

As a connected action to the B.F. Sisk SOD Modification Project, Reclamation and San Luis and Delta Mendota Water Authority (SLDMWA) seek to evaluate an increase in storage capacity of the San Luis Reservoir. The increased storage capacity would be achieved by an additional 10-foot raise of the B.F. Sisk Dam embankment across the entire dam crest above the level proposed for dam safety purposes (Proposed Action). This additional 10 feet of dam embankment could add approximately 120,000 AF of water storage to San Luis Reservoir. SLDMWA, in coordination with Reclamation, is conducting a feasibility study to evaluate the Proposed Action and a potential cost-share in accordance with the Reclamation SOD Act (43 U.S.C. 506 *et seq.*), as amended by Public Law 114-113, and Section 4007 of the Water Infrastructure Improvements for the Nation (WIIN) Act (Pub. L. 114-322).

The Reclamation SOD Act of November 2, 1978, was amended to include authority for Reclamation to develop additional project benefits in conjunction with a SOD modification. Pursuant to Section 5.B. of the SOD Act, as amended, Reclamation must determine that additional project benefits are necessary and in the interest of the United States prior to developing any additional project benefits, consistent with Reclamation law. Furthermore, it must be determined that the development of additional project benefits will not negatively impact the SOD Modification Project.

As a potential funder for the Proposed Action under the WIIN Act, and in accordance with the amended SOD Act, Reclamation's preliminary purpose and need is to evaluate the feasibility report and determine if SLDMWA's request to increase storage capacity as an additional benefit in conjunction with the current SOD Modification Project is

consistent with Reclamation Law, can support a Secretary of the Interior's finding of feasibility, has Federal benefits pursuant to the WIIN Act, and can be accomplished without negatively impacting the SOD Modification Project.

In addition to a feasibility study, Reclamation intends to complete a SEIS pursuant to NEPA to consider potential environmental effects from implementing the Proposed Action. This environmental document is supplemental to the Final EIS/EIR previously developed for the SOD Modification Project entitled B.F. Sisk Dam Safety of Dams Modification Project (84 FR 44295). Reclamation will focus the SEIS on analyzing effects to resources where a potentially significant impact exists. The resources intended to be discussed include: Water quality, surface water supply, geology and soils, air quality, greenhouse gas emissions, visual resources, noise, traffic and transportation, hazards and hazardous materials, terrestrial resources, recreation, and cultural resources including tribal cultural resources. Agencies and the public are encouraged to provide input regarding potentially significant issues to be addressed in the SEIS, or to identify potential alternatives that would meet the purpose of the Proposed Action.

Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Richard Welsh,

Principal Deputy Regional Director, Bureau of Reclamation, Interior Region 10—California-Great Basin.

Bureau of Reclamation

[RR06450000, 19XR0680A4, RX.08254998.0010010]

Off-Road Vehicle Designation for the San Angelo Project, Texas

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of off-road vehicle designation.

SUMMARY: This notice announces the Bureau of Reclamation's designation of areas for authorized off-road vehicle (ORV) use on Federal lands surrounding Twin Buttes Reservoir, which is part of the Bureau of Reclamation's San Angelo Project in Tom Green County, Texas.

DATES: This ORV designation is effective immediately and is permanent until canceled, amended, or replaced by the Bureau of Reclamation.

ADDRESSES: A copy of the off-road designation, including the Environmental Assessment and Finding of No Significant Impact, is available at <https://www.usbr.gov/gp/otao/>.

FOR FURTHER INFORMATION CONTACT: Mr. Trent Parish, Bureau of Reclamation, Oklahoma-Texas Area Office, 5316 Highway 290 West, Suite 110, Austin, TX 78735; (512) 899-4150; or email jparish@usbr.gov.

SUPPLEMENTARY INFORMATION: The use of off-road vehicles on public lands associated with Twin Buttes Reservoir, TX must be designated in accordance with 43 CFR 420 and other applicable Federal rules and regulations. In recognition of this, and with the prerequisite to ensure compliance with such Federal regulations, Reclamation, Texas Parks Wildlife Department, and the City of San Angelo completed a comprehensive inventory and condition assessment of existing resources, and coordinated extensively with local stakeholders to seek input from the public on preferred ORV uses, as well on overall recreation priorities. Federal lands were evaluated according to criteria outlined in 43 CFR 420.22 to determine their suitability for ORV use. This included all Federal lands associated with the San Angelo Project and Twin Buttes Reservoir located within Tom Green County, Texas. The assessment resulted in the proposed designation of 73 miles of trails and three ORV areas. This designation is the culmination of resource considerations and public involvement integrated into an Environmental Assessment and Finding of No Significant Impact (19-18-TX-SA) that were completed in accordance with the National Environmental Protection Act of 1969.

The ORV designation includes:

(a) Approximately 56 miles of designated access routes. Access routes provide reasonable access to lands surrounding Twin Buttes Reservoir's North and South Pools.

(b) Approximately 17 miles of Motorcycle/All-Terrain Vehicle (Moto/ATV) routes. Moto/ATV routes are a

network of one-directional trails designated for motorized use by motorcycles and small ATVs

(c) Approximately 338 acres of ORV areas. The ORV areas are comprised of three separate tracts of land with variable terrain requiring more diverse ORV skill levels.

Mark A. Treviño,

Oklahoma—Texas Area Manager, Bureau of Reclamation, Arkansas-Rio Grande-Texas-Gulf—Interior Region 6.

BILLING CODE 4332-90-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1012 (Third Review)]

Frozen Fish Fillets From Vietnam; Scheduling of a Full Five-Year Review

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the scheduling of a full review pursuant to the Tariff Act of 1930 (“the Act”) to determine whether revocation of the antidumping duty order on frozen fish fillets from Vietnam would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time. The Commission has determined to exercise its authority to extend the review period by up to 90 days.

DATES: May 11, 2020.

FOR FURTHER INFORMATION CONTACT: Stamen Borisson ((202) 205-3125), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this review may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On January 6, 2020, the Commission determined that responses to its notice of institution of the subject five-year review were such that a full review should proceed (85 FR 3417,

January 21, 2020); accordingly, a full review is being scheduled pursuant to section 751(c)(5) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(5)). A record of the Commissioners' votes, the Commission's statement on adequacy, and any individual Commissioner's statements are available from the Office of the Secretary and at the Commission's website.

Participation in the review and public service list.—Persons, including industrial users of the subject merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in this review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the Commission's rules, by 45 days after publication of this notice. A party that filed a notice of appearance following publication of the Commission's notice of institution of the review need not file an additional notice of appearance. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

For further information concerning the conduct of this review and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

Please note the Secretary's Office will accept only electronic filings at this time. Filings must be made through the Commission's Electronic Document Information System (EDIS, <https://edis.usitc.gov>). No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and BPI service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI gathered in this review available to authorized applicants under the APO issued in the review, provided that the application is made by 45 days after publication of this notice. Authorized applicants must represent interested parties, as defined by 19 U.S.C. 1677(9), who are parties to the review. A party granted access to BPI following publication of the Commission's notice of institution of the review need not reapply for such access. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.
