A. Overview of Information Collection

Title of Information Collection: Allocation of Operating Funds under the Operating Fund Formula: Data Collection.

OMB Approval Number: 2577–0029.

Type of Request: Extension of currently approved collections.

Form Number: HUD–52722 and HUD–52723.

Description of the need for the information and proposed use: Public Housing Agencies (PHAs) use this information in budget submissions which are reviewed and approved by HUD field offices as the basis for obligating the operating fund grant. This information is necessary to calculate the eligibility for the operating fund grant under the Operating Funding Program regulations, as amended. The Operating Fund is designed to provide the amount of operating funds needed for well-managed PHAs. PHAs submit the information electronically with these forms.

The following changes occurred in this submission. The form no longer includes blocks 4. Unit Change Indicator and 5. Rate Reduction Incentive. The form includes adjustments to improve the workflow of the form. Adjustments include changes to formatting and adding Line 19 Total base utilities expense level for respondents to clearly understand where to sum the results of data collected in columns.

HUD collects information for HUD–52723 and HUD–52722 through VBA enhanced Microsoft Excel Tools. In fiscal year 2021, HUD plans to transition to web-based forms HUD–52723 and HUD–52722. HUD planned a phased launch of the web-based collection. Initially the collection by web-based forms is limited to subset PHAs that HUD expands each subsequent year until all PHAs exclusively use the web-based forms. PHAs without access to the web-based forms continue to use the Excel based forms. Web-based forms improves the availability of the forms to PHAs, improves data integrity, and secure transfer of the data from the PHA to HUD.

Final Environmental Impact Statement for the Upper Santa Ana River Wash Habitat Conservation Plan; San Bernardino County, CA

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a final environmental impact statement (EIS) analyzing the impacts of issuance of two incidental take permits (ITPs) under the Endangered Species Act for implementation of the Upper Santa Ana River Wash Habitat Conservation Plan (HCP). Our proposed decision is to issue 30-year ITPs to the San Bernardino Valley Water Conservation District (District) and the San Bernardino County Flood Control District (SBCFCD) covering two federally listed animal species, two federally listed plant species, and one non-listed animal species. The HCP covers activities for water conservation, aggregate mining, recreation, flood control, and other public services in San Bernardino County, California. The final EIS is a joint Environmental Impact Statement/ Supplemental Environmental Impact Report (EIS/SEIR). The final SEIR portion of the joint document was prepared by the District in compliance with the California Environmental Quality Act.

DATES: This notice initiates the availability of the final EIS. A record of decision will be signed no sooner than 30 days after the publication of this notice of availability in the **Federal Register**.

SUPPLEMENTARY INFORMATION: The Service received applications submitted by the San Bernardino Valley Water Conservation District (District, applicant), and the San Bernardino County Flood Control District (SBCFCD, applicant) for incidental take permits (ITPs) under section 10 (a)(1)(B) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The final environmental impact statement (EIS) was developed in compliance with the Service's decision-making requirements under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*) and analyzes three alternatives, including the Upper Santa Ana River Wash Habitat Conservation Plan (HCP) submitted by the applicants. The applicants' proposed HCP covers five species (two federally listed animal species, two federally listed plant species, and one non-listed animal species). The HCP covers activities for water conservation, aggregate mining, recreation, flood control, and other public services in San Bernardino County, California. The EIS is a joint Environmental Impact Statement/ Supplemental Environmental Impact Report (EIS/SEIR). The SEIR portion of the joint document was prepared by the District in compliance with the California Environmental Quality Act. The EIS/SEIR evaluates the direct, indirect, and cumulative impacts of several alternatives related to the Service's decision whether to issue ITPs in response to the District's and SBCFCD's applications. The project area lies within San Bernardino County, primarily in the cities of Highland and Redlands, as well as within the unincorporated County area. The plan area encompasses approximately 4,892 acres.
