

Production under FTZ procedures could exempt CoLinX from customs duty payments on the foreign-status materials/components used in export production (estimated 4 percent of production). On its domestic sales, for the foreign-status materials/components noted below and in the existing scope of authority, CoLinX would be able to choose the duty rates during customs entry procedures that apply to kits of tapered roller bearing cup/cone assemblies and gearheads (duty rates, 2.5% or 5.8%). CoLinX would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include tapered roller bearing cones, inner and outer races for tapered roller bearings, and fixed ratio speed changers (duty rates, 2.5% or 5.8%). The request indicates that certain tapered roller bearings are subject to an antidumping/countervailing duty (AD/CVD) order if imported from China. The FTZ Board's regulations (15 CFR 400.14(e)) require that merchandise subject to AD/CVD orders, or items which would be otherwise subject to suspension of liquidation under AD/CVD procedures if they entered U.S. customs territory, be admitted to the zone in privileged foreign status (19 CFR 146.41). The request also indicates that certain materials/components are subject to special duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: [ftz@trade.gov](mailto:ftz@trade.gov). The closing period for their receipt is June 24, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on 2/6/2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

*Agency:* Bureau of Industry and Security.

*Title:* Technology Letter of Explanation.

*OMB Control Number:* 0694-0047.

*Number of Respondents:* 6,283.

*Average Hours per Response:* 30 minutes to 2 hours.

When an export involves certain technical data or knowhow described in the Export Administration Regulation, additional information is required to fully understand the transaction and make a licensing decision. The additional information is necessary to evaluate technology exports as covered under this collection. Under certain

circumstances, the export of technology requires additional safeguards to insure that advanced U.S. knowhow is not permitted to end up in the wrong hands. The letter of assurance puts the consignee on notice that the technology is subject to U.S. export controls and causes the consignee to certify that it will not release the data or the direct product of the data to certain specified countries; thus providing assurance that U.S. national security data will be safeguarded.

Commerce is notifying the public that the CIT's final judgment is not in harmony with Commerce's *Amended Final Determination* in the LTFV investigation of hot-rolled steel from Turkey. Pursuant to the CIT's final judgment, Commerce is amending the estimated weighted-average dumping margins for Ereğli Demir ve Çelik Fabrikalari T.A.Ş. and Iskenderun Demir Ve Celik (collectively, Erdemir) and Çolakoğlu Metalurji A.S. and Çolakoğlu Dis Ticaret A.S. (collectively, Çolakoğlu), and excluding Çolakoğlu from the *Order*. Further, Commerce is discontinuing, in part, the 2017–18 and 2018–19 administrative reviews with respect to Çolakoğlu.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On August 12, 2016, Commerce published its *Final Determination* in the LTFV investigation of hot-rolled steel from Turkey.<sup>1</sup> Subsequently, on October 3, 2016, Commerce published its *Amended Final Determination* and *Order*.<sup>2</sup> As reflected in Commerce's *Amended Final Determination*, Commerce calculated estimated weighted-average dumping margins of 6.77 percent for Çolakoğlu, 4.15 percent for Erdemir, and 6.41 percent for all other producers and exporters of subject merchandise.<sup>3</sup>

Çolakoğlu and Erdemir appealed Commerce's *Final Determination*, as amended by the *Amended Final Determination*, to the CIT. On March 22, 2018, the CIT remanded the *Amended Final Determination* for Commerce to explain or reconsider: (1) Its treatment

of Erdemir's home market date of sale; (2) Çolakoğlu's request for a duty drawback adjustment; and (3) Commerce's rejection of Çolakoğlu's corrections to international ocean freight expenses presented at verification.<sup>4</sup> On July 20, 2018, Commerce issued its first results of redetermination, in which it determined to: (1) Use the "click date" of the pro-forma invoice as the date of sale for Erdemir's home market sales; (2) grant Çolakoğlu's request for a duty drawback adjustment; and (3) continue to reject Çolakoğlu's corrections to its reported international ocean freight expenses, which were presented at verification.<sup>5</sup> As a result of the changes in the *First Redetermination*, Commerce calculated estimated weighted-average dumping margins of 5.70 percent for Çolakoğlu, 2.73 percent for Erdemir, and 5.29 percent for all other producers and exporters of subject merchandise.<sup>6</sup>

On December 27, 2018, in its *Second Remand Order*, the CIT sustained Commerce's revised home market date of sale for Erdemir and its determination not to accept corrections to Çolakoğlu's international ocean freight expenses that had been presented at verification, and remanded Commerce's methodology for calculating Çolakoğlu's duty drawback adjustment.<sup>7</sup> Specifically, the CIT found that Commerce's calculation methodology of allocating exempted duties over the total cost of sales for hot-rolled steel to calculate Çolakoğlu's duty drawback adjustment was inconsistent with the statute.<sup>8</sup>

On June 3, 2019, Commerce issued its second results of redetermination, in which we increased Çolakoğlu's U.S. price by the full amount of duties that were drawn back or forgiven and then added the same per-unit duty amount to normal value as a circumstance of sale adjustment.<sup>9</sup> As a result of the changes to our duty drawback methodology in the *Second Redetermination*, Commerce calculated estimated weighted-average dumping margins of 6.27 percent for Çolakoğlu, and 5.79 percent for all other
