General Information for All Airports

The FAA has designated EWR, LAX, ORD, and SFO as IATA Level 2 airports¹ and JFK as an IATA Level 3 airport consistent with the Worldwide Slot Guidelines (WSG).² The FAA currently limits scheduled operations at JFK by order that expires on October 24, 2020.³ The U.S. Winter 2020/2021 scheduling season is from October 25, 2020, through March 27, 2021, in recognition of the IATA northern winter scheduling period. Notwithstanding that carriers may presently face unusual uncertainty about their operations in light of Coronavirus Disease 2019 (COVID–19), carriers should continue preparations for schedule facilitation at Level 2 airports and an extension of slot controls at JFK during the Winter 2020/2021 scheduling season, even if the effects of COVID–19 continue into the Winter 2020/2021 scheduling season.⁴

¹ These designations remain effective until the FAA announces a change in the *Federal Register*.

² The FAA applies the WSG to the extent there is no conflict with U.S. law or regulation. The FAA is reviewing recent substantive amendments to the WSG adopted in version 10 and considering whether to implement certain changes in the United States.

³ Operating Limitations at John F. Kennedy International Airport, 73 FR 3510 (Jan. 18, 2008), as most recently extended 83 FR 46865 (Sep. 17, 2018). The slot coordination parameters for JFK are set forth in this Order.
