

Authority for Conducting the Matching Program

The authority for conducting the matching program is 42 U.S.C. 653(j)(3).

Purpose(s)

The purpose of the matching program is to provide each participating state agency administering TANF with new hire, quarterly wage, and unemployment insurance information from OCSE's NDNH system of records to assist them in establishing or verifying TANF applicants' and recipients' eligibility for assistance, reducing payment errors, and maintaining program integrity, including determining whether duplicate participation exists or if the applicant or recipient resides in another state. The state TANF agencies may also use the NDNH information for the secondary purpose of updating the recipients' reported participation in work activities and updating recipients' and their employers' contact information maintained by the state TANF agencies.

Categories of Individuals

The categories of individuals involved in the matching program are adult members of households who have applied for or receive TANF benefits.

Categories of Records

The categories of records involved in the matching program, which may include personal identifiers, are new hire, quarterly wage, and unemployment insurance information. The specific data elements that will be provided to OCSE in a state agency input file are:

- Adult TANF caseload month and year of adult TANF applicants and recipients
- Adult TANF applicant/recipient's Social Security number
- Adult TANF applicant/recipient's first, middle, and last name

Optional:

- Passback data (state agency information used to identify individuals within the input file to be returned on the output file)
- Same state data indicator (indicates whether the state agency requests NDNH new hire, quarterly wage, or unemployment insurance even if the information was provided by that same state)

OCSE will compare the Social Security numbers in the state agency input file to the Social Security numbers in the NDNH, and will provide the state agency with any available new hire, quarterly wage, and available unemployment insurance information in NDNH pertaining to the individuals whose records are contained in the state agency input file. The NDNH data elements that OCSE will return to the state agency are as follows:

The Administration for Community Living (ACL) is requesting approval for a revised data collection associated with the Evaluation of the Administration for Community Living’s (ACL) American Indian, Alaska Natives, and Native Hawaiian Programs (Older Americans Act [OAA] Title VI; short title: Evaluation of the Title VI Programs). OAA Title VI establishes grants to Native Americans for nutrition services, supportive services, and family caregiver support services. The purpose of Title VI is “to promote the delivery of supportive services, including nutrition services, to American Indians, Alaskan Natives, and Native Hawaiians that are comparable to services provided under Title III” (42 U.S.C. 3057), which provides nutrition, caregiver and supportive services to the broader U.S. population. Title VI is comprised of three parts; Part A provides nutrition and supportive services to American Indians and Alaska Natives, Part B provides nutrition and supportive

services to Native Hawaiians, and Part C provides caregiver services to any programs that have Part A/B.

The evaluation will consist of six data collection activities: (1) Tribal program staff interviews; (2) tribal program staff focus groups, (3) tribal elder focus groups, (4) tribal elder interviews, (5) tribal caregiver focus groups, and (6) follow-up tribal program staff interview.

ACL is requesting to revise the currently approved data collection under OMB 0985–0059 by removing the caregiver survey and adding a follow-up tribal program staff interview. The proposed revisions also include removing annual performance reporting data elements from the currently approved IC under OMB 0985–0059 to the OMB approved Title VI Annual Performance Report under OMB 0985–0007.
