SUPPLEMENTARY INFORMATION: PHMSA received a special permit renewal request from TETLP, owned by Enbridge, Inc., to continue its pipeline operation as defined in the special permit renewal issued on February 11, 2016. The present special permit term ends October 28, 2020, and the original special permit was issued on October 28, 2010. TETLP’s special permit renewal request of March 11, 2020, seeks to waive compliance from requirements of 49 CFR 192.112(a)(1), 192.112(c)(1), 192.112(c)(2), 192.112(d)(2)(i), 192.112(f)(1), 192.620(d)(5)(iii), and 192.620(d)(11)(ii)(A). This special permit renewal allows TETLP to continue its operation of the 36-inch diameter pipeline system, as defined in the original special permit issued on October 28, 2010, and renewed on February 11, 2016, up to a maximum allowable operating pressure (MAOP) of 1,112 pounds per square inch gauge. This MAOP is based upon a pipeline design factor for the pipe steel of 80 percent of the specified minimum yield strength (SMYS) in Class 1 locations, 67 percent of the SMYS in Class 2 locations, and 56 percent of the SMYS in Class 3 locations of the 36-inch diameter pipeline system. The special permit applies to 267.48 miles of 36-inch diameter pipeline system which consists of 97.94 miles of 36-inch Line 1 and 169.54 miles of 36-inch Line 2. The special permit segments are located in Fayette, Somerset, Bedford, Fulton, Franklin, Adams, York, and Lancaster Counties in Pennsylvania.

The special permit renewal request, existing special permit with conditions, and environmental assessment for the TETLP 36-inch diameter pipeline system are available for review and public comments in the Docket No. PHMSA–2008–0257. We invite interested persons to review and submit comments on the special permit renewal request in the docket. Please include any comments on potential safety and environmental impacts that may result

if the special permit renewal is granted. Comments may include relevant data.

Before issuing a decision on the special permit renewal request, PHMSA will evaluate all comments received on or before the comment closing date. Comments received after the closing date will be evaluated, if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit renewal request.
