

The *Report and Order* directed that eligible space station operators that choose to clear on the accelerated timeframe in exchange for an accelerated relocation payment must do so via a written commitment by filing an Accelerated Relocation Election in GN Docket No. 18–122. Such elections are public and irrevocable. Pursuant to the *Report and Order*, WTB prescribes the following format for filing an Accelerated Relocation Election: The election must state that the eligible space station operator elects to perform an accelerated relocation, understands and accepts the commitments made when filing an Accelerated Relocation Election, and understands and accepts the reduction in payments for missing deadlines as outlined in the *Report and Order*. The election must be signed by a company officer of the eligible space station operator with authority to bind the company. The election must acknowledge the Commission's authority to adopt the accelerated relocation payment and the reduction in payments for missing deadlines. The election must acknowledge that sufficient eligible space station operators must elect accelerated relocation such that at least 80% of the total possible accelerated relocation payments are accepted for the Commission to accept elections and require overlay licensees to pay accelerated relocation payments.

The information collection requirements were approved by OMB on May 5, 2020 under OMB control number 3060–1272.

If an eligible space station operator elects not to make an Accelerated Relocation Election, that operator will forfeit its eligibility to receive accelerated relocation payments, even if it completes all tasks by the Accelerated Relocation Deadlines and files a Certification of Accelerated Relocation.
