

description is included in the scope. Subject merchandise includes common alloy sheet that has been further processed in a third country, including but not limited to annealing, tempering, painting, varnishing, trimming, cutting, punching, and/or slitting, or any other processing that would not otherwise remove the merchandise from the scope of the order if performed in the country of manufacture of the common alloy sheet.

Excluded from the scope of this order is aluminum can stock, which is suitable for use in the manufacture of aluminum beverage cans, lids of such cans, or tabs used to open such cans. Aluminum can stock is produced to gauges that range from 0.200 mm to 0.292 mm, and has an H-19, H-41, H-48, or H-391 temper. In addition, aluminum can stock has a lubricant applied to the flat surfaces of the can stock to facilitate its movement through machines used in the manufacture of beverage cans. Aluminum can stock is properly classified under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7606.12.3045 and 7606.12.3055.

Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set for the above.

Common alloy sheet is currently classifiable under HTSUS subheadings 7606.11.3060, 7606.11.6000, 7606.12.3090, 7606.12.6000, 7606.91.3090, 7606.91.6080, 7606.92.3090, and 7606.92.6080. Further, merchandise that falls within the scope of this order may also be entered into the United States under HTSUS subheadings 7606.11.3030, 7606.12.3030, 7606.91.3060, 7606.91.6040, 7606.92.3060, 7606.92.6040, 7607.11.9090. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

The description of carbon-quality is intended to identify carbon-quality products within the scope. The welded carbon-quality rectangular pipe and tube subject to this order is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7306.61.50.00 and 7306.61.70.60. While HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of this order is dispositive.

### Rescission of Countervailing Duty Changed Circumstances Reviews

As noted above, Commerce does not have all necessary information on the record to make a final determination in the countervailing duty CCRs of aluminum foil and aluminum sheet. For the countervailing duty CCRs, Commerce requires, among other things, a longer and well-defined time span for the “look-back” period and additional documents, such as financial statements, pursuant to *Turkey Pasta CCR 2009*.<sup>4</sup> Commerce requires this information to make a successor-in-interest finding for countervailing duty orders because we need to review the operations, ownership, corporate or legal structure during the relevant period that could have affected the nature and extent of the respondent’s subsidy levels. As *Turkey Pasta CCR 2009* states, in a countervailing duty CCR, our focus is government subsidization and whether any changes in the company might affect the nature and extent of that subsidization, while in an antidumping CCR we are concerned, instead, with price discrimination, *i.e.*, the pricing behavior of the company.<sup>5</sup> Thus, some of the information we request and need for purposes of our analysis are distinct. In this case, because the respondent did not reply to our request for information in the countervailing duty CCRs, we do not have all the necessary information we need to make a determination with respect to the countervailing duty CCRs. Accordingly, we are rescinding the countervailing duty CCRs of aluminum foil and aluminum sheet from China in their entirety.

### Final Results of the Antidumping Duty Changed Circumstances Reviews

For the reasons stated in the *Initiation and Preliminary Results*, and because we received no comments from interested parties, Commerce continues to find that Shanghai Huaфон is the successor-in-interest to Huaфон Nikkei for antidumping duty purposes. As a result of this determination, we determine that Shanghai Huaфон should receive the antidumping cash deposit rates applicable to Huaфон Nikkei. Consequently, Commerce will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of

### Pacific Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Pacific Fishery Management Council’s (Pacific Council) Southern Oregon/Northern California Coast (SONCC) Coho Technical Team (Team) will hold an online meeting, which is open to the public.

**DATES:** The online meeting will be held on Tuesday, June 9, 2020, from 9 a.m. until 4:30 p.m., Pacific Daylight Time, or until business is complete.

<sup>6</sup> See *Certain Aluminum Foil From the People’s Republic of China: Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order*, 83 FR 17362 (April 19, 2018); see also *Certain Aluminum Foil From the People’s Republic of China: Amended Final Affirmative Countervailing Duty Determination and Countervailing Duty Order*, 83 FR 17360 (April 19, 2018) (collectively, Aluminum Foil Orders).

<sup>7</sup> See *Common Alloy Aluminum Sheet From the People’s Republic of China: Antidumping Duty Order*, 84 FR 2813 (February 8, 2019); see also *Common Alloy Aluminum Sheet From the People’s Republic of China: Countervailing Duty Order*, 84 FR 2157 (February 6, 2019) (collectively, Aluminum Sheet Orders).

**ADDRESSES:** This meeting will be held online. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see [www.pcouncil.org](http://www.pcouncil.org)). You may send an email to Mr. Kris Kleinschmidt ([kris.kleinschmidt@noaa.gov](mailto:kris.kleinschmidt@noaa.gov)) or contact him at (503) 820-2280, extension 412 for technical assistance.

*Council address:* Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

**FOR FURTHER INFORMATION CONTACT:**

Robin Ehlke, Staff Officer, Pacific Council; telephone: (503) 820-2410.

**SUPPLEMENTARY INFORMATION:** The SONCC Team will discuss a timeline and workplan to develop a harvest control rule for SONCC coho that NMFS could consider in establishing a new Endangered Species Act consultation standard for SONCC coho. A draft Terms of Reference and timeline will also be discussed, which the Team will work to finalize. The Team may also discuss the upcoming Pacific Council meeting scheduled in June, and draft a statement and prepare materials for that meeting. Public comments during the meeting will be received from attendees at the discretion of the Team Chair.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

**Special Accommodations**

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt ([kris.kleinschmidt@noaa.gov](mailto:kris.kleinschmidt@noaa.gov); (503) 820-2412) at least 10 days prior to the meeting date.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: May 19, 2020.

**Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Ward Cove Cruise Ship Dock Project, Juneau, Alaska**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; issuance of an incidental harassment authorization.

**SUMMARY:** In accordance with the regulations implementing the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that NMFS has issued an incidental harassment authorization (IHA) to Power Systems & Supplies of Alaska (PSSA) to incidentally harass, by Level A and B harassment only, marine mammals during construction activities associated with the Ward Cove Cruise Ship Dock Project near Ketchikan, Alaska.

**DATES:** This authorization is effective for one year from the date of issuance.

**FOR FURTHER INFORMATION CONTACT:**

Dwayne Meadows, Ph.D., Office of Protected Resources, NMFS, (301) 427-8401. Electronic copies of the application and supporting documents, as well as a list of the references cited in this document, may be obtained online at: <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act>. In case of problems accessing these documents, please call the contact listed above.

**SUPPLEMENTARY INFORMATION:**

**Background**

The MMPA prohibits the "take" of marine mammals, with certain exceptions. Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed incidental take authorization may be provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the

taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for taking for subsistence uses (where relevant). Further, NMFS must prescribe the permissible methods of taking and other "means of effecting the least practicable adverse impact" on the affected species or stocks and their habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of the species or stocks for taking for certain subsistence uses (referred to in shorthand as "mitigation"); and requirements pertaining to the mitigation, monitoring and reporting of the takings are set forth.

The definitions of all applicable MMPA statutory terms cited above are included in the relevant sections below.

**Summary of Request**

On December 30, 2019, NMFS received a request from PSSA for an IHA to take marine mammals incidental to Ward Cove Cruise Ship Dock Project near Ketchikan, Alaska. The application was deemed adequate and complete on February 5, 2020. PSSA's request is for take of four species by Level B harassment and/or Level A harassment. Neither PSSA nor NMFS expects serious injury or mortality to result from this activity and, therefore, an IHA is appropriate.

**Description of the Specified Activity**

*Overview*

The project consists of the construction of a cruise ship dock for two cruise ships in Ward Cove, approximately 8 kilometers (5 miles) north of downtown Ketchikan, Alaska. PSSA would install a pile supported 500-foot by 70-foot (152 by 21 m) floating pontoon dock, mooring structures, and shore-access transfer span and trestle. The project includes the following in-water components: Driving 102, 30-48 inch diameter steel pipe piles to support the structures and removal of 48 of these piles (all 30-inch diameter) that are being used solely as templates to guide installation of larger permanent piles. It is expected to take no more than 105 days of in-water work. Pile driving would be by vibratory pile driving until resistance is too great and driving would switch to an impact hammer. Removal of temporary piles would use vibratory methods only. Forty larger 36- and 48-inch piles would also be rock anchored into place using a down-the-hole (DTH) hammer.

A detailed description of the planned project is provided in the **Federal**
