SUPPLEMENTARY INFORMATION:

A. Background

Approximately 344 establishments produce mattresses. The Commission promulgated the Standard for the Flammability of Mattresses and Mattress Pads, 16 CFR part 1632 (part 1632 standard), under section 4 of the Flammable Fabrics Act (FFA), 15 U.S.C. 1193, to reduce unreasonable risks of burn injuries and deaths from fires associated with mattresses and mattress pads. The part 1632 standard prescribes requirements to test whether a mattress or mattress pad will resist ignition from a smoldering cigarette. The part 1632 standard also requires manufacturers to perform prototype tests of each combination of materials and construction methods used to produce mattresses or mattress pads and to obtain acceptable results from such testing. Manufacturers and importers must maintain the records and test results specified under the standard.

In addition, the Commission promulgated the Standard for the Flammability (Open Flame) of Mattress Sets, 16 CFR part 1633 (part 1633 standard), under section 4 of the FFA to reduce deaths and injuries related to mattress fires, particularly those ignited by open-flame sources, such as lighters, candles, and matches. The part 1633 standard requires manufacturers to maintain certain records to document compliance with the standard, including maintaining records concerning prototype testing, pooling, and confirmation testing, and quality assurance procedures and any associated testing. The required records must be maintained for as long as mattress sets based on the prototype are in production and must be retained for 3 years thereafter. Although some larger manufacturers may produce mattresses based on more than 100 prototypes, most mattress manufacturers base their complying production on 15 to 20 prototypes. OMB previously approved the collection of information for 16 CFR parts 1632 and 1633, under control number 3041–0014, with an expiration date of June 30, 2020. The information collection requirements under the part 1632 standard are separate from the testing and recordkeeping requirements under the part 1633 standard.

On March 13, 2020, the CPSC published a notice in the **Federal Register** (85 FR 14655), to announce the agency's intention to seek extension of approval of the collection of information. The Commission received no comments. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to the OMB a request for extension of approval of that collection of information, without change.

B. Burden Hours

16 CFR 1632: Staff estimates that there are 344 respondents. It is estimated that each respondent will spend 26 hours for testing and record keeping annually for a total of 8,944 hours (344 establishments × 26 hours = 8,944). The hourly compensation for the time required for record keeping is \$70.17 (for management, professional, and related occupations in goods-producing industries, Bureau of Labor Statistics, September, 2019). The annualized cost to respondents would be approximately \$627,600 (8,944 hours × \$70.17).

16 CFR 1633: The standard requires detailed documentation of prototype identification and testing records, model and prototype specifications, inputs used, name and location of suppliers, and confirmation of test records, if establishments choose to pool a prototype. This documentation is in addition to documentation already conducted by mattress manufacturers in their efforts to meet 16 CFR part 1632. Staff estimates that there are 344 respondents. Based on staff estimates, the recordkeeping requirements are expected to require about 4 hours and 44 minutes per establishment, per qualified prototype. Although some larger manufacturers reportedly are producing mattresses based on more than 100 prototypes, most mattress manufacturers probably base their complying production on 15 to 20 prototypes, according to an industry representative contacted by staff. Assuming that establishments qualify their production with an average of 20 different qualified prototypes, recordkeeping time is about 94.6 hours (4.73 hours × 20 prototypes) per establishment, per year. (Note that pooling among establishments or using a prototype qualification for longer than 1 year will reduce this estimate). This translates to an estimated annual recordkeeping time cost to all mattress producers of 32,542 hours (94.6 hours × 344 establishments). The hourly compensation for the time required for record keeping is \$70.17 (for management, professional, and related

occupations in goods-producing industries, Bureau of Labor Statistics, September, 2019). The annual total estimated costs for recordkeeping are approximately \$2,283,500 (32,542 hours × \$70.17).

The total estimated annual cost to the 344 establishments for the burden hours associated with both 16 CFR part 1632 and 16 CFR part 1633 is approximately \$2.8 million.

DEPARTMENT OF EDUCATION

Extension of the Application Deadline Date; Applications for New Awards; Magnet Schools Assistance Program

AGENCY: Office of Elementary and Secondary Education, Department of Education.

ACTION: Notice.

SUMMARY: On March 10, 2020, we published in the **Federal Register** (85 FR 13878) a notice inviting applications (NIA) for the fiscal year (FY) 2020 Magnet Schools Assistance Program competition, Catalog of Federal Domestic Assistance (CFDA) number 84.165A. The NIA established a deadline date of May 26, 2020 for the transmittal of applications. This notice extends the deadline date for transmittal of applications until June 30, 2020 and extends the date of intergovernmental review until August 28, 2020. It also extends the date for proof of approval of all modifications to court-ordered desegregation plans to July 28, 2020.

DATES:

Deadline for Transmittal of Applications: June 30, 2020.

Deadline for Intergovernmental Review: August 28, 2020.

extending the deadline date for transmittal of applications in order to allow applicants more time to prepare and submit their applications.

Additionally, the NIA indicated that proof of approval of all modifications to court-ordered desegregation plans could be submitted to the Department following the application due date. The new deadline for proof of modifications is July 28, 2020.

Please also note that *Grants.gov* has relaxed the requirement for applicants to have an active registration in the System for Award Management (SAM) in order to apply for funding during the COVID-19 pandemic. An applicant that does not have an active SAM registration can still register with *Grants.gov*, but must contact the *Grants.gov* Support Desk, toll-free, at 1-800-518-4726, in order to take advantage of this flexibility.

Note: While applications must be transmitted in the FY 2020 year, which ends on September 30, 2020, any awards granted will be made only after all applicable reviews and certifications have been completed. All other information in the NIA for this competition remains the same, except for the deadline for the transmittal of applications, intergovernmental review, and proof of modified desegregation plans, if court ordered.
